Thousands Flee As Beulah Heads For Rio Grande

BROWNSVILLE, Tex. (AP) — Texans by the thousands fled before the 130 mile-an-hour wrath of growing Hurricane Beulah today and the big storm hewed to a line straight toward the mouth of the Rio Grande.

The Weather Bureau said the storm was picking up speed and strength. Hurricane warnings were out for miles of coastline, extending as far as Port Aransas, Tex.

Aside from the possibility of death from its winds, Beulah posed a \$20 million killer blow toward crops in the Lower Rio Grande Valley of Texas. State Agriculture Commissioner John C. White said \$15 million in citrus and \$5 million of other crops lay directly in the storm's path.

The well-organized storm was on a path for the Rio Grande and Weather Bureau observers expected her to curve on a trek up the coastline after hitting land. The landfall was expected sometime late tonight.

One death in Texas was blamed on Beulah even as she was some 190 miles from this tip-of-Texas city. A giant wave toppled Bridgette Laverne Anthony from her surfboard as she rode massive waves off Freeport, Tex.

The Coast Guard at Port Isabel, Tex., dispatched the 82-foot motor cutter Point Noel to sea to rescue the occupants of what a Coast Guard spokesman described as a "large motor vessel" floundering in the pitching Gulf of Mexico. Other details were not immediately available.

At Port Isabel some 3,000 persons fled the storm. The predicted high tides of 10 feet would close roads into the coastal fishing and resort city.

Warnings against gale winds were out for the island city of Galveston, two-thirds of the way up the Texas Coast.

At 11 a.m. the Weather Bureau said the storm had picked up 135 mile-an-hour winds and was located about 175 miles southeast of Brownsville. The storm was at latitude 23.8 north and longitude 95.9 west.

Padre Island lay evacuated in the hurricane's path. Corpus Christi, a city of more than 200,000, also was in the hurricane warning area.

The Weather Bureau said

Beulah at 9 a.m. was centered near latitude 23.7 north and longitude 95.7 west, about 190 miles southeast of Brownsville.

Beulah was moving at 10 miles an hour but forecasters said it would pick up speed during the day. Forecasters said tides up to 10 feet would wash the coast today and tonight.

"Present indications are that the center should move inland near the mouth of the Rio Grande tonight, and then turn northward paralleling the south Texas coast," the Weather Bureau said.

Evacuation of coast areas was under way in exposed places. Schools in the Rio Grande Valley—which stood to lose a multimillion-dollar citrus crop if the storm kept its course—were closed as far as 80 miles inland.

The causeway linking sprawling Padre Island, a vacation resort area, to the mainland, was closed at 8:30 A.M.

The entire town of Port Mansfield was evacuated down to the little port's harbor master.

The 11-day-old hurricane, the biggest of the season, slowed late Monday night. The storm already is responsible for at least 22 deaths in a vicious sweep through the eastern Caribbean and across Mexico's Yucatan Peninsula.

Hurricane force winds reached 70 miles from Beulah's center, with gales 250 miles to her north and 100 miles in her wake.

The Coast Guard station at Brownsville reported a quickening of the wind at 9 a.m. today as Beulah's fury neared. One motel on South Padre Island already reported a foot of water inside the building from breakers running through the sand dunes of the beach.

Landmark Exec Denies Charges

ASHLAND, Ohio (AP)—The president of the Ashland County Landmark board of directors, Richard Tugend, issued a statement today denying allegations made by a New York congressman that the organization is running a "con game."

Earlier, the Ohio Farm Bureau Federation had denied the charges made by Rep. Joseph Y. Resnick, D-N.Y., calling them "ridiculous and untrue."

Resnick asked Ohio Atty. Gen. William B. Saxbe to investigate the Farm Bureau after Mrs. Norma Williams of Ashland County reportedly told him that Landmark refused to redeem certificates distributed as dividends.

Tugend said articles of incorporation for cooperatives, including Landmark Cooperatives, are filed in the office of Secretary of State Ted W. Brown and are available for anyone to review. The legality, purposes and manner of conducting business, he said, were clearly spelled out by farm leaders years ago.

"Most cooperative farmers," he said, "understand the real purpose of holding patronage refunds as a means for farmers to acquire more equity in their business. If real ownership was not present, as was carelessly charged, why would a local board of directors, as the one at Ashland County Landmark elected by stockholders (farmers), make the decision to reinvest patronage refunds in the business? The decision was made by farmers, and it was made because they felt it was the best course of action for their cooperative."

Ford To Hike New Car Prices

DETROIT (AP) — Officials of the Ford Motor Co. today studied a list of increased prices announced by General Motors Corp. and are expected to announce their own prices for 1968 models Wednesday or Thursday.

Both Ford and Chrysler Corp. increased their prices on 1967 models last year, but rolled them back after General Motors announced a price list much lower.

In announcing Monday that their 1968 models would carry a suggested list price averaging \$110 more than 1967s, GM left the door open to a further increase if the United Auto Workers, now striking Ford, win a sizeable pay boost from the industry.

Negotiations between the UAW and Ford continued today in an effort to end the strike by 160,000 workers, now in its 13th day.

Bargaining at the main table resumed Monday but an effort to make progress on noneconomic issues apparently failed.

GM said that the increased prices on 1968 models "recognize current material costs and payroll costs."

GM said its new prices average 3.6 per cent higher than those on last year's models, computing them with a formula in which the number of a particular model sold affects the over-all average.

If the weighted system is not used, GM's prices are up an average of \$124, or four per cent.

The GM average was less than the \$133 average boost announced last week by Chrysler for 1968 models. Chrysler estimated its hike at 4.6 per cent.

GM said that \$81 of the \$110 price increase reflected costs of two items optional in 1967 models but standard in the new cars in compliance with federal law, exhaust emission control devices and center seat belts.

Classes Resume in Detroit As Teachers OK New Offer

DETROIT (AP)—School doors swung open today for 300,000 students in Detroit, ending a summer vacation that was prolonged by a 13-day teachers strike.

Teachers returned to their jobs Monday after winning an across-the-board raise over two years of \$1,700.

In addition to the salary increase, \$850 this year and \$850 the next, the teachers won a reduction of the school year from 40 weeks to 39 and limitation of classes to 39 pupils. The ratification on Monday of the proposed contract, hammered out during early morning bargaining sessions, lowered to 13 the number of Michigan school districts where master contracts for teachers have not been reached.

In five of the unsettled school districts, teachers have been ordered back to work by court injunctions, although in one of them, Crestwood District in Dearborn Heights, most of the 211 teachers have resigned.

In the remaining eight districts, some 75,000 students are still out of school.

Lt. Gov. William G. Milliken on Monday asked the school boards in Bloomfield Hills, Oak Park, Dearborn and Menominee the courts.

Milliken, acting as governor during the absence of Gov. George Romney, said injunctions are being sought in Bridgeport, Highland Park, Hamtramck and North Dearborn Heights.

Detroit teachers, represented by Local 231, American Federation of Teachers, AFL-CIO, ratified their new contract by a vote of 3,316-376 after union leaders told them "that is the best we can do."

The teachers demanded a \$1,700 boost immediately when negotiations opened.

Under the old pay scale a beginner with a B.A. started at \$5,800. A teacher with a Ph.D. and 12 years service could earn as much as \$11,000.

The Board of Education said the new pact will cost \$18.7 million over the next two years and will push the school system towards deficit financing.

WASHINGTON (AP) — President Johnson asked congressional leaders today to speed action on money bills so he can decide where to withhold spending in an effort to cut the deficit.

Senate Democratic Leader Mike Mansfield told reporters after a White House conference that Johnson believes there will be some federal spending reductions.

Such reductions, Mansfield said, will exclude defense and atomic energy outlays and automatic expenditures such as interest on the national debt.

"But they will include some projects pretty dear to the hearts of members of Congress," he added with a wan smile.

The Democratic leader said Johnson urged passage of his proposed 10 per cent surcharge on income taxes "as soon as practicable."

Mansfield added the President recognizes the House Ways and Means Committee, which must initiate such legislation, has the primary responsibility of deciding on the timing of any bill.

Asked how the decision to build an antimissile system would affect proposed expenditure reductions, Mansfield noted Congress already has provided the money for a start this year.

"I support Secretary (of Defense Robert S.) McNamara had no choice but to go ahead with it," he said. "I still hope, however, that we can negotiate an agreement with the Russians not to build a larger system."

U.N. Attention On Middle East

UNITED NATIONS, N. Y. (AP) — The General Assembly opens its regular session today preoccupied with Middle East problems that few delegates thought they could quickly solve. For the first time, a Communist seemed assured of election as assembly president.

The Arab-Israeli conflict, underscored by a new brief Suez Canal firefight Monday, took a "high priority" place on the agenda. But tough advance position statements from both sides foreshadowed more foreboding than movements towards peace.

The man expected to guide debate on the question is Foreign Minister Corneliu Manescu of Romania. Reflecting his government's independent foreign policy, the 51-year-old Communist has received wide support as a presidential candidate.

Even before the 22nd regular session got under way Soviet and Arab voices demanded Israel's immediate withdrawal from territories captured during the six-day June war. The Israeli reply was that without its recognition by Arab states and direct negotiations there could be no solution to the problem.

The Israelis also spiked in advance as "pro-Arab" a peace plan that London informants said British Foreign Secretary George Brown brought with him to the new session.

Brown's plan called for a pull-back of Israeli forces from the Suez Canal 25 or 30 miles to a fortified line on the Sinai peninsula as a move to prime an eventual settlement, the informants said.

Russian delegates, sticking to the line they developed during the summer's inconclusive emergency session, said they would call on the new assembly to "take measures to insure the immediate withdrawal of Israeli forces." The emergency meetings ended Monday.

"We had hoped for a different tone and a different approach" from the Soviets," replied U.S. Ambassador Arthur J. Goldberg.

Despite its "high priority" status, regular session debate on the Middle East did not seem likely to begin before mid-October.

The prospective assembly agenda listed 96 other items, including the seating of Communist China, disarmament and the installing of a U.N. administration.

Appeals Courts Justice Named

COLUMBUS, Ohio (AP)—Appellate Judge Burt H. Long of Cincinnati, was elected chief justice of Ohio Courts of Appeals today.

He will succeed Judge J. Thomas Guernsey of Lima, on Jan. 1.

The election took place at the annual meeting of appellate court judges in the Ohio Supreme Court chambers here.

Judge D. Deane McLaughlin of Canton, was elected secretary.

Ohio has 34 appellate judges in 10 districts.

Saigon Explosion Wrecks Nationalist China Embassy

SAIGON (AP) — Communist terrorist blew up the Nationalist Chinese Embassy in Saigon's busy downtown section today and Red agents gunned down two prominent Chinese elsewhere in the capital.

South Vietnamese police said the blast that brought down the two-story embassy and an exchange of gunfire with terrorists killed one person and wounded 27. Fears spread of a new Red terror campaign in Saigon.

On other fronts U.S. planes raided inside North Vietnam's port of Haiphong for the second straight day Monday and Communist gunners rained a torrent of shells on U.S. Marine outposts below the Demilitarized Zone.

Throughout South Vietnam ground action was scattered.

Monday night several terrorists went to the home of a prominent Chinese professor in Cholon, Saigon's Chinese quarter, called him outside and shot him to death. They escaped.

Reagan Nixes Campaign To Nominate Him

SACRAMENTO, Calif. (AP) — Gov. Ronald Reagan ruled out today the creation of a Reagan-For-President campaign organization before the 1968 Republican National Convention.

Reagan said he is not a candidate for the nation's highest office. But, for the first time, he said, "I'm aware of the talk that's been going on" about the possibility of him becoming a candidate.

But he disclosed he will set up machinery in California to handle the June presidential primary campaign for the favorite son delegation he intends to lead to the convention.

Reagan said he will have an organization in California next year to assure a good showing for his delegation. He said he decided to lead the state Republican delegation to prevent other candidates from coming into California and engaging in a repeat of the bitter Nelson A. Rockefeller-Barry Goldwater California fight of 1964.

Reagan was interviewed in his Capitol office less than two weeks before he leaves on a speaking tour to Illinois, South Carolina and Wisconsin in which he plans to discuss Vietnam and domestic issues.

Asked if he could see any circumstance that would force the convention to turn to him, Reagan said, "There is no way I can answer that question."

He said that any answer short of a flat "no" would be taken as a declaration of candidacy. He reiterated, however, he is not a candidate for president.

Reagan said he definitely will not take part in pre-convention campaigning in primaries or rounding up delegates at state conventions.

He also said he didn't believe he would be drafted as a presidential choice.

Reagan reiterated he will not campaign in Oregon, Nebraska and Wisconsin, states where the name is expected to be on the open primary ballot.

The governor said New Hampshire's secretary of state soon will receive a letter from him refusing permission for his name to be on that state's primary ballot.

But the governor's upcoming speaking tour includes a speech in Milwaukee, Wis., and in November he will speak in Oregon.

He said the 1968 presidential campaign would revolve around Vietnam, inflation and "some of the things like Detroit and Newark," cities hit by racial violence and what he termed "symbols" of the nation's domestic problems.

Interceptor Network To Act As 'Umbrella'

WASHINGTON (AP) — The Pentagon's plan to build a \$5 billion Nike X antiballistic missile system will provide each region of the United States with at least one battery of far-reaching warhead interceptors.

Defense scientists made this clear today in guarded interviews about Defense Secretary Robert S. McNamara's so-called "light" defense against nuclear attack, primarily directed to guard against a potential threat from Red China.

The decision to proceed with deployment of an antimissile system was announced by McNamara Monday in a speech to news editors at San Francisco.

Although the plan he announced is one of the biggest strategic decisions in U.S. history, it is not the often-discussed full-blown antimissile system which would have an estimated cost of up to \$40 billion. McNamara opposes such an outlay.

The exact locations of the antimissile batteries, each with several missiles, remain a closely held secret. But one Pentagon official familiar with the plans said the main line of defense will center on several antimissile complexes stationed just below the Canadian border.

Other antimissile sites will be interspersed along the western and eastern seaboard, in the Midwest and in the Southwest and Deep South. Each site will be protected by a battery of Sprint missiles.

Government sources also indicated Canada has given the United States permission to establish one of the vital missile-detection radar sites on Canadian territory near the Great Lakes.

Nike X is a technological marvel of the 1960s which, according to Pentagon scientists, is far more advanced than the only other missile defense in existence, the Soviet ABM.

Its prime purpose: to defend against what McNamara termed a possible irrational nuclear missile attack by Red China in the 1970s.

"It would be insane and suicidal for her to do so, but one can conceive of conditions under which China might miscalculate," McNamara said. In addition to providing region-wide defense, some Nike X missiles will be deployed to protect

Elvis Belts Former Yardman in Argument

MEMPHIS, Tenn. (AP) — Elvis Presley used his fists to flatten a former employee during an argument, according to the Shelby County Sheriff's office.

A sheriff's office report Monday indicated the 31-year-old millionaire entertainer decked Troy Ivy, 38, with one blow. Ivy denied he had gone down but said Presley hit him twice.

No arrests were made.

The report said the incident occurred Sunday at the front gate of Presley's estate, Graceland, in suburban Whitehaven. Ivy was identified as a former yardman for Presley's father.

Thousands Flee As Beulah Heads For Rio Grande

BROWNSVILLE, Tex. (AP) — Texans by the thousands fled before the 130 mile-an-hour wrath of growing Hurricane Beulah today and the big storm hewed to a line straight toward the mouth of the Rio Grande.

The Weather Bureau said the storm was picking up speed and strength. Hurricane warnings were out for miles of coastline, extending as far as Port Aransas, Tex.

Aside from the possibility of death from its winds, Beulah poised a \$20 million killer blow toward crops in the Lower Rio Grande Valley of Texas. State Agriculture Commissioner John C. White said \$15 million in citrus and \$5 million of other crops lay directly in the storm's path.

The well-organized storm was on a path for the Rio Grande and Weather Bureau observers expected her to curve on a trek up the coastline after hitting land. The landfall was expected sometime late tonight.

One death in Texas was blamed on Beulah even as she was some 190 miles from this tip-of-Texas city. A giant wave toppled Bridgette Laverne Anthony from her surfboard as she rode massive waves off Freeport, Tex.

The Coast Guard at Port Isabel, Tex., dispatched the 82-foot motor cutter Point Noel to sea to rescue the occupants of what a Coast Guard spokesman described as a "large motor vessel" floundering in the pitching Gulf of Mexico. Other details were not immediately available.

At Port Isabel some 3,000 persons fled the storm. The predicted high tides of 10 feet would close roads into the coastal fishing and resort city.

Warnings against gale winds were out for the island city of Galveston, two-thirds of the way up the Texas Coast.

At 11 a.m. the Weather Bureau said the storm had picked up 135 mile-an-hour winds and was located about 175 miles southeast of Brownsville. The storm was at latitude 23.8 north and longitude 95.9 west.

Padre Island had evacuated in the hurricane's path. Corpus Christi, a city of more than 200,000, also was in the hurricane warning area.

The Weather Bureau said

Beulah at 9 a.m. was centered near latitude 23.7 north and longitude 95.7 west, about 190 miles southeast of Brownsville.

Beulah was moving at 10 miles an hour but forecasters said it would pick up speed during the day. Forecasters said tides up to 10 feet would wash the coast today and tonight.

"Present indications are that the center should move inland near the mouth of the Rio Grande tonight, and then turn northward paralleling the south Texas coast," the Weather Bureau said.

Evacuation of coast areas was under way in exposed places. Schools in the Rio Grande Valley—which stood to lose a multimillion-dollar citrus crop if the storm kept its course—were closed as far as 80 miles inland.

The causeway linking sprawling Padre Island, a vacation resort area, to the mainland, was closed at 8:20 A.M.

The entire town of Port Mansfield was evacuated down to the little port's harbor master.

The 11-day-old hurricane, the biggest of the season, slowed late Monday night. The storm already is responsible for at least 22 deaths in a vicious sweep through the eastern Caribbean and across Mexico's Yucatan Peninsula.

Hurricane force winds reached 70 miles from Beulah's center, with gales 250 miles to her north and 190 miles in her wake.

The Coast Guard station at Brownsville reported a quickening of the wind at 9 a.m. today as Beulah's fury neared. One motel on South Padre Island already reported a foot of water inside the building from breakers running through the sand dunes of the beach.

Landmark Exec Denies Charges

ASHLAND, Ohio (AP)—The president of the Ashland County Landmark board of directors, Richard Tugend, issued a statement today denying allegations made by a New York congressman that the organization is running a "con game."

Earlier, the Ohio Farm Bureau Federation had denied the charges made by Rep. Joseph Y. Resnick, D-N.Y., calling them "ridiculous and untrue."

Resnick asked Ohio Atty. Gen. William B. Saxbe to investigate the Farm Bureau after Mrs. Norma Williams of Ashland County reportedly told him that Landmark refused to redeem certificates distributed as dividends.

"The charges are distorted, misleading and of a malicious nature seemingly intended to harm the business integrity of Landmark Cooperatives in Ohio and all cooperatives in the United States," Tugend said in his statement.

Tugend said articles of incorporation for cooperatives, including Landmark Cooperatives, are filed in the office of Secretary of State Ted W. Brown and are available for anyone to review. The legality, purposes and manner of conducting business, he said, were clearly spelled out by farm leaders years ago.

"Most cooperative farmers," he said, "understand the real purpose of holding patronage refunds as a means for farmers to acquire more equity in their business. If real ownership was not present, as was carelessly charged, why would a local board of directors, as the one at Ashland County Landmark elected by stockholders (farmers), make the decision to reinvest patronage refunds in the business? Ford To Hike New Car Prices

DETROIT (AP)—Officials of the Ford Motor Co. today studied a list of increased prices announced by General Motors Corp. and are expected to announce their own prices for 1968 models Wednesday or Thursday.

Both Ford and Chrysler Corp. increased their prices on 1967 models last year, but rolled them back after General Motors announced a price list much lower.

In announcing Monday that their 1968 models would carry a suggested list price averaging \$110 more than 1967s, GM left the door open to a further increase if the United Auto Workers, now striking Ford, win a sizeable pay boost from the industry.

Negotiations between the UAW and Ford continued today in an effort to end the strike by 160,000 workers, now in its 13th day.

Bargaining at the main table resumed Monday but an effort to make progress on noneconomic issues apparently failed.

GM said that the increased prices on 1968 models "recognize current material costs and payroll costs."

GM said its new prices average 3.6 per cent higher than those on last year's models, computing them with a formula in which the number of a particular model sold affects the over-all average.

If the weighted system is not used, GM's prices are up an average of \$124, or four per cent.

The GM average was less than the \$133 average boost announced last week by Chrysler for 1968 models. Chrysler estimated its hike at 4.6 per cent.

GM said that \$91 of the \$119 price increase reflected costs of two items optional in 1967 models but standard in the new cars in compliance with federal law, exhaust emission control devices and center seat belts.

Classes Resume in Detroit As Teachers OK New Offer

DETROIT (AP)—School doors swung open today for 300,000 students in Detroit, ending a summer vacation that was prolonged by a 13-day teachers strike.

Teachers returned to their jobs Monday after winning an across-the-board raise over two years of \$1,700.

In addition to the salary increase, \$850 this year and \$850 the next, the teachers won a reduction of the school year from 40 weeks to 39 and limitation of classes to 39 pupils. The ratification on Monday of the proposed contract, hammered out during early morning bargaining sessions, lowered to 13 the number of Michigan school districts where master contracts for teachers have not been reached.

In five of the unsettled school districts, teachers have been ordered back to work by court injunctions, although in one of them, Crestwood District in Dearborn Heights, most of the 211 teachers have resigned.

In the remaining eight districts, some 75,000 students are still out of school.

Lt. Gov. William G. Milliken on Monday asked the school boards in Bloomfield Hills, Oak Park, Dearborn and Menominee the courts.

Milliken, acting as governor during the absence of Gov. George Romney, said injunctions are being sought in Bridgeport, Highland Park, Hamtramck and North Dearborn Heights.

Detroit teachers, represented by Local 231, American Federation of Teachers, AFL-CIO, ratified their new contract by a vote of 3,316-376 after union leaders told them "that is the best we can do."

The teachers demanded a \$1,700 boost immediately when negotiations opened.

Under the old pay scale a beginner with a B.A. started at \$5,800. A teacher with a Ph.D. and 12 years service could earn as much as \$11,000.

The Board of Education said the new pact will cost \$18.7 million over the next two years and will push the school system towards deficit financing.

Senate Democratic Leader Mike Mansfield told reporters after a White House conference that Johnson believes there will be some federal spending reductions.

Such reductions, Mansfield said, will exclude defense and atomic energy outlays and automatic expenditures such as interest on the national debt.

"But they will include some projects pretty dear to the hearts of members of Congress," he added with a wan smile.

The Democratic leader said Johnson urged passage of his proposed 10 per cent surcharge on income taxes "as soon as practicable."

Mansfield added the President recognizes the House Ways and Means Committee, which must initiate such legislation, has the primary responsibility of deciding on the timing of any bill.

Asked how the decision to build an antimissile system would affect proposed expenditure reductions, Mansfield noted Congress already has provided the money for a start this year.

"I support Secretary (of Defense Robert S.) McNamara had no choice but to go ahead with it," he said, "I still hope, however, that we can negotiate an agreement with the Russians not to build a larger system."

U.N. Attention On Middle East

UNITED NATIONS, N. Y. (AP)—The General Assembly opens its regular session today preoccupied with Middle East problems that few delegates thought they could quickly solve. For the first time, a Communist seemed assured of election as assembly president.

The Arab-Israeli conflict, underscored by a new brief Suez Canal firefright Monday, took a "high priority" place on the agenda. But tough advance position statements from both sides foreshadowed more foreboding movements towards peace.

The man expected to guide debate on the question is Foreign Minister Corneliu Manescu of Romania. Reflecting his government's independent foreign policy, the 51-year-old Communist has received wide support as a presidential candidate.

Even before the 22nd regular session got under way Soviet and Arab voices demanded Israel's immediate withdrawal from territories captured during the six-day June war. The Israeli reply was that without its recognition by Arab states and direct negotiations there could be no solution to the problem.

The Israelis also spiked in advance as "pro-Arab" a peace plan that London informants said British Foreign Secretary George Brown brought with him to the new session.

Brown's plan called for a pull-back of Israeli forces from the Suez Canal 25 or 30 miles to a fortified line on the Sinai peninsula as a move to prime an eventual settlement, the informants said.

Russian delegates, sticking to the line they developed during the summer's inconclusive emergency session, said they would call on the new assembly to "take measures to insure the immediate withdrawal of Israeli forces." The emergency meetings ended Monday.

"We had hoped for a different tone and a different approach" from the Soviets," replied U.S. Ambassador Arthur J. Goldberg.

Despite its "high priority" status, regular session debate on the Middle East did not seem likely to begin before mid-October.

The prospective assembly agenda listed 96 other items, including the seating of Communist China, disarmament and the installing of a U.N. administration in South-West Africa.

Appeals Courts Justice Named

COLUMBUS, Ohio (AP)—Appellate Judge Burt H. Long of Cincinnati, was elected chief justice of Ohio Courts of Appeals today.

He will succeed Judge J. Thomas Guernsey of Lima, on Jan. 1.

The election took place at the annual meeting of appellate court judges in the Ohio Supreme Court chambers here.

Judge D. Deane McLaughlin of Canton, was elected secretary.

Ohio has 34 appellate judges in 10 districts.

Two shots into the chest of Col. Charles T. Chung, chief intelligence officer of the Nationalist Chinese Embassy, shortly after the embassy bombing. Later police arrested 20-year-old Phung Ngoc Anh, a Chinese girl. They found her with a .45-caliber pistol.

Chung was in critical condition.

Monday night several terrorists went to the home of a prominent Chinese professor in Cholon, Saigon's Chinese quarter, called him outside and shot him to death. They escaped.

Interceptor Network To Act As 'Umbrella'

WASHINGTON (AP)—The Pentagon's plan to build a \$5 billion Nike X antiballistic missile system will provide each region of the United States with at least one battery of far-reaching warhead interceptors.

Defense scientists made this clear today in guarded interviews about Defense Secretary Robert S. McNamara's so-called "light" defense against nuclear attack, primarily directed to guard against a potential threat from Red China.

The decision to proceed with deployment of an antimissile system was announced by McNamara Monday in a speech to news editors at San Francisco.

Although the plan he announced is one of the biggest strategic decisions in U.S. history, it is not the often-discussed full-blown antimissile system which would have an estimated cost of up to \$40 billion. McNamara opposes such an outlay.

The exact locations of the antimissile batteries, each with several missiles, remain a closely held secret. But one Pentagon official familiar with the plans said the main line of defense will center on several antimissile complexes stationed just below the Canadian border.

Other antimissile sites will be interspersed along the western and eastern seaboard, in the Midwest and in the Southwest and Deep South. Each site will be protected by a battery of Sprint missiles.

Government sources also indicated Canada has given the United States permission to establish one of the vital missile-detection radar sites on Canadian territory near the Great Lakes.

Nike X is a technological marvel of the 1960s which, according to Pentagon scientists, is far more advanced than the only other missile defense in existence, the Soviet ABM.

Its prime purpose: to defend against what McNamara termed a possible irrational nuclear missile attack by Red China in the 1970s.

"It would be insane and suicidal for her to do so, but one can conceive of conditions under which China might miscalculate," McNamara said. In addition to providing region-wide defense, some Nike X missiles will be deployed to protect

Elvis Belts Former Yardman in Argument

MEMPHIS, Tenn. (AP)—Elvis Presley used his fists to flatten a former employee during an argument, according to the Shelby County Sheriff's office.

A sheriff's office report Monday indicated the 31-year-old millionaire entertainer decked Troy Ivy, 38, with one blow. Ivy denied he had gone down but said Presley hit him twice.

No arrests were made.

The report said the incident occurred Sunday at the front gate of Presley's estate, Graceland, in suburban Whitehaven. Ivy was identified as a former yardman for Presley's father.

Saigon Explosion Wrecks Nationalist China Embassy

SAIGON (AP)—Communist terrorist blew up the Nationalist Chinese Embassy in Saigon's busy downtown section today and Red agents gunned down two prominent Chinese elsewhere in the capital.

South Vietnamese police said the blast that brought down the two-story embassy and an exchange of gunfire with terrorists killed one person and wounded 27. Fears spread of a new Red terror campaign in Saigon.

On other fronts U.S. planes raided inside North Vietnam's port of Haiphong for the second straight day Monday and Communist gunners rained a torrent of shells on U.S. Marine outposts below the Demilitarized Zone.

Throughout South Vietnam ground action was scattered.

American offensive missile batteries against Soviet attack.

But as McNamara portrayed it, the ABM decision was made primarily to counter a hostile China in three to five years—not to match the Soviet Union's deployment of antimissiles.

The Pentagon chief said he still opposes the idea of trying to defend against an all-out, sophisticated Soviet missile attack with antimissile missiles.

He warned danger exists in deploying even a light missile defense that "pressures will develop to expand it into a heavy Soviet-oriented ABM system."

The Joint Chiefs of Staff have urged a wider deployment of an antimissile system to provide a general nationwide missile umbrella plus individual protection for 25 to 50 American cities.

McNamara said his \$5 billion system would:

—"Have a much higher degree of reliability against a Chinese attack than the much more massive and complex system that some have recommended against a possible Soviet attack."

—"Provide an additional indication to Asians that we intend to deter China from nuclear blackmail."

—"Enable us to add—a further defense to our Minuteman sites against Soviet attack" while "avoiding a much more costly expansion of that force."

—"Add protection of our population against the improbable but possible accidental launch of an intercontinental missile by any one of the nuclear powers."

Much of McNamara's speech to a United Press International meeting was devoted to explaining his view that the best way to maintain superiority over the Soviet Union is not by matching defensive moves but by maintaining superior offensive forces.

McNamara said the United States already is spending billions on its advanced Minuteman and sea-based Poseidon missiles to make sure they can get past Soviet missile defense.

Months have passed since the United States proposed to the Soviet Union an agreement on curbing and eventually reducing the nuclear arsenals, but McNamara refused to acknowledge failure in the diplomatic effort.

Judge Ammer Sentences 2 To Reformatory

William McWhorter, 19, and Carol Hawley, 19, both of Orient were sentenced to state penal institutions Tuesday by Pickaway County Common Pleas Judge William Ammer.

Both McWhorter and Miss Hawley appeared before the judge on a bill of information, waiving their rights to a grand jury hearing and a trial.

They entered pleas of guilty to check forgery.

Judge Ammer sentenced both to terms of 1-20 years. McWhorter was sent to the Mansfield Reformatory and Miss Hawley to the Marysville Reformatory for Women.

Ronald Clark, 422½ S. Court St., also charged with forgery, was placed on probation for three years. A condition of his probation was that he make restitution of the amount of money involved. Clark entered a plea of guilty.

Larry Williams, Route 1, indicted by the Grand Jury for non support, entered a plea of innocent to the court today at his arraignment.

Youth Shot by Hunter

A 10-year-old Columbus youth was accidentally shot in the back 7 p. m. Monday while squirrel hunting with his father along the Scioto River near route 762.

Billy Bryan, son of William Bryan, was released from Children's Hospital Tuesday morning following treatment of "superficial" wounds caused by a shotgun blast.

Bryan told Pickaway County Sheriff Dwight Radcliff his son was sitting under a tree along the river bank. He heard his son's 22 caliber rifle, and then heard a blast from a shotgun followed by a shout from the youth.

He rushed to the spot, and saw a hunter across the river.

Without waiting to talk to the hunter, who is still unidentified, he took his son to Children's Hospital, Columbus.

Bryan told the sheriff he believed the shooting was accidental because of apparent concern shown by the hunter across the river. The hunter was 35 to 40 yards from the boy.

Youth Shot by Hunter

A 10-year-old Columbus youth was accidentally shot in the back 7 p. m. Monday while squirrel hunting with his father along the Scioto River near route 762.

Billy Bryan, son of William Bryan, was released from Children's Hospital Tuesday morning following treatment of "superficial" wounds caused by a shotgun blast.

Bryan told Pickaway County Sheriff Dwight Radcliff his son was sitting under a tree along the river bank. He heard his son's 22 caliber rifle, and then heard a blast from a shotgun followed by a shout from the youth.

He rushed to the spot, and saw a hunter across the river.

Without waiting to talk to the hunter, who is still unidentified, he took his son to Children's Hospital, Columbus.

Bryan told the sheriff he believed the shooting was accidental because of apparent concern shown by the hunter across the river. The hunter was 35 to 40 yards from the boy.

Truck Fire Doused

The Circleville Fire Department extinguished a fire in a truck parked in the Litter's Coal Yard 8:55 p. m. Monday.

The fire, which was discovered on the seat of the late model truck, did an estimated \$10 damage, a fire department spokesman said. The truck was loaded with fuel oil.

Slum Rebuilt By Private Group

PITTSBURGH, Pa. (AP) — A couple of years ago Cora Street was a dirty, dark, rundown slum. Today it is bright, clean and cheerful. The people who live there are proud of it.

Dear Abby: By Abigail Van Buren

Silver Wedding Party sans Hubby

DEAR ABBY: I will soon have my 25th wedding anniversary except for one thing. My husband and I have separated for the past six years. He has tried to get a divorce, but he will never get one as long as I am living because I shall continue to contest it. You see I am one of those old-fashioned girls who happen to believe that marriage is "for better or worse, till death do us part."

Now this may sound funny to you, but I want to celebrate my silver wedding anniversary with a big party. I want my four children to be there along with friends and family, and I want to get anniversary gifts even if my husband isn't present. I know that one day the crazy fool will come back to me, and when he does, of course, I will take him back.

Does my idea of a silver wedding party sound too wild? And please advise what gifts you think my children should give me. I want some lovely silver to hand down to my grandchildren.

NANA

DEAR NANA: Unless your estranged husband returns to help you celebrate your 25th wedding anniversary, I'm afraid your idea of celebrating without him is "too wild."

DEAR ABBY: A very dear friend of mine sent me an invitation to her daughter's wedding.

The bride is 14 years old and the groom is 23! Because of my personal convictions that the bride is too young to marry, I have refused to attend the wedding.

Do you believe my actions are too severe, considering I wish the couple all the happiness?

UC Gets Study Grant

CINCINNATI (AP)—The University of Cincinnati has received a \$12,950 grant from the U.S. Interior Department to conduct research of ground water resources in river basins, officials said Monday.

Dr. Herbert C. Preul, UC associated professor of civil engineering, will conduct research on determining the best use of ground water resources of the Great Miami River here.

OHIO CASH GRAIN

COLUMBUS, Ohio (AP) — Ohio Dept. of Agri. cash grain prices: No 2 red wheat unchanged to 1 higher 1.30-1.32, mostly 1.30-1.34; No 2 yellow corn mostly unchanged with spots lower 1.01-1.07 per bu, mostly 1.04-1.05; No 2 oats unchanged to 2 lower 66-75, mostly 68-75; No 1 soybeans mostly unchanged with spots higher 2.48-2.58, mostly 2.48-2.55.

by rehabilitating slums than knocking the buildings flat and starting from scratch.

Action-Housing Inc., a civic organization, bought and rebuilt the 22 row houses along Cora Street as a pilot project to test its theory that massive rehabilitation could be profitable.

Action-Housing spent \$230,000 of the money it gets from grants and donations. It broke even by selling the homes back to the landlords.

But Director Bernard E. Loshbough said Cora Street could have been a money-maker. He has started a corporation designed to do the same job on a massive scale and make money. Fourteen businesses have pledged \$1 million of the \$3.1 million the corporation says it needs to get started.

For the tenants the advantages are more than a clean, pleasant, modern home.

"The people seem to be more neighborly," said Mrs. Richard Robinson of 536 Cora. "Before, you couldn't sit out on the porch and talk to people. Everybody kept to themselves."

The Robinsons are paying \$90 a month rent. It used to be \$87, but the new rent includes gas and lights. Mrs. Robinson figures she comes out even.

Loshbough said the Cora Street experience indicates that a profit-making corporation, using mass production techniques over a wide area, could clear \$500 per unit.

That figure would rise sharply if labor costs were reduced, and the Pittsburgh Building Trades Council has already agreed to eradicate the strict jurisdictional lines that boost building costs.

Sen. Charles H. Percy, R-Ill., and 38 other senators have been trying to get the federal government into the picture with a bill for a National Homeowners Foundation Act, which would make low-interest loans so tenants could become homeowners.

"I believe this example of private-sector action in Pittsburgh shows how large scale community improvement can be undertaken," Percy said on a visit to Cora Street.

Missile Plans At a Glance

By THE ASSOCIATED PRESS

Here is a summary of the missile defense program announced Monday by Defense Secretary Robert S. McNamara:

The Cost—About \$5 billion.

The Purpose—To provide protection for the United States against enemy nuclear missiles—primarily, McNamara says, the sort of attack Red China might be capable of launching by the early 1970s.

The Scope—One of the biggest strategic decisions in U.S. history, but not as big as the full anti-Soviet system some military and civilian leaders have called for, which would cost up to \$40 billion.

Missile Battery Locations—Officially secret. Reportedly, several will be just below the Canadian border, and in the western and eastern seaboard, the Midwest, Southwest, and Deep South.

in the world under the circumstances?

CONCERNED
DEAR CONCERNED: If your term "very dear friend" really means what it says, your friend may "need" a friend at this wedding. You should go and keep your "convictions" to yourself.

DEAR ABBY: My son was recently divorced. It wasn't a messy name - calling divorce, but a fairly friendly one.

His ex-wife has remarried, and her new husband does not want her, or her two small children to have anything to do with her ex-family. They have moved across town and have not told anyone of their address, which I respect. And I wish them well.

My son pays a high child support, but he never sees the children, altho the court gave him visitation rights. My husband says to leave them alone. My son feels the same about it. But they are my grandchildren and I miss them. This is all the new husband's idea. Is this fair? What's the answer?

UNWANTED GRANDMOTHER
DEAR UNWANTED: No, it's not "fair" — but there is nothing you can do about it. If your son has "visitation rights" and he's not using them, it would appear that he couldn't care less about whether his children ever see their grandparents or not. So don't blame the ex-daughter-in-law or the "new" husband entirely.

CONFIDENTIAL TO ANITA:
A woman likes — indeed "needs" — to be told out loud that she is loved. And I will tell you another not-so-well-kept "secret." So does a man.

Testing for Character

So far as they go intelligence and aptitude tests have proved of undoubted value. But do they go far enough? It is on the assumption that there is still a "farthest north" not measured by these that attempts are being made to develop new methods to determine qualities that are imbedded in the characters of individual students.

Such methods, if devised, will — it is hoped — "reveal emotional, drive force motivation and other characteristics in the young not measured by intelligence and aptitude tests" according to a new story.

Such new tests would be expected to determine, among other things, how easily the individual could be influen-

ed by companions, whether he could be misled by false nostrums even whether he is of a type that conceivably could become a traitor to his country in time of war.

By the tests now employed, it is possible to identify a scientific genius, but they do not measure his stability or character. For the leaders of a safe future, easy acquisition of learning is not enough. Their brains must ably employ reason to discriminate between causes, and they must have the fortitude to stand firm against opposition.

The teaching world will watch with interest efforts to put testing for character on a par with that of calculating intelligence and aptitude.

Predictions Aren't Coming True

Predictions made a quarter century ago that social security would lessen the amounts paid to the needy aged by the government are not coming true. The increasing impact of social security has the effect of lessening the number receiving assistance outside that program. But the payments per individual continue to rise.

This calls for a survey and better accounting. Obviously those receiving old age assistance who are able to care

for themselves or have families who can care for them should be removed from the rolls.

All local governments have a stake in the assistance program. Dollar sums are rising constantly, not only because of the elderly but because of dependent children and other unfortunate. Where need is actual, they should be cared for. But it is a needless drain on tax funds if the chiselers are not rooted out.

Try and Stop Me

By BENNETT CERF

MAURICE DOLBIER remembers the unquestioned highlight of a presentation of "Hamlet" by a group of college undergraduates. It was the entrance of the Ghost—who had, as the enraptured audience immediately discovered, forgotten to take off his spectacles.

Little Sebastian, the nastiest brat in the neighborhood, came home from his very first day in school. "I hope you didn't cry," said his overindulgent mother. "Of course I didn't cry," scoffed Little Sebastian, "but, oh boy, the teacher did!"

Two noteworthy classified ads: In a Los Angeles daily: "Wanted: man to work on nuclear fissionable isotope molecular reactive counters and three-phase cyclotron photostimulators. No experience necessary." . . . In the Southern Illinois University student newspaper: "Sweet little old lady wishes to correspond with S.I.U. undergraduate. Prefers six-foot male with brown eyes answering to initials J.D.B. (Signed) His Mother."

QUICKIES:

Lady with several bundles at the entrance to Marshall Field's: "Did you by any chance notice a very angry man in a blue sedan drive by here nine or ten times?"
Mother to prospective bride: "Always remember, my dear, that marriage consists of give and take. If he doesn't give you enough—just take it."

Speaking of Your Health

By Lester L. Coleman, M.D.

Bleeding after the removal of tonsils and adenoids is a rare occurrence. To the parents and to the child who has had this unpleasant complication the distress was immense.

As an ear, nose and throat surgeon I have heard of this experience many times, always with the insinuation that it was the fault of somebody else. "The doctor did or did not do," "The hospital did or did not do," "The nurses did or did not do." Always there is a reason which becomes magnified over the years as the story is retold.

The truth of the matter is that the bleeding is nobody's fault. It just occurs.

Children are sent from the operating room "completely dry." For some strange reason a small blood vessel sometimes may open and continue to bleed until it is stopped.

Almost always the amount of blood that is lost is negligible. It looks like a lot on a towel or when coughed up into a basin. This is not a hemorrhage and is readily controlled.

Bleeding after a tonsillectomy occasionally occurs a few hours after an operation, even though the surgery was complete and uneventful. Sometimes a blood vessel may open between the 6th and 10th day after the operation. This late bleeding may be caused when the healing scab comes off or by a slight infection that may have prevented complete healing.

The use of antibiotics before and after a tonsillectomy has markedly reduced the frequency of bleeding.

Vitamin K or C before such surgery is absolutely useless unless there is a known deficiency of these vitamins. Some people have accused their surgeon of this responsibility because Vitamin K or C had not been used pre-operatively. This is just another peg to hand an angry hat on.

It is an established rule of the American College of Surgeons that every person who has an operation, any operation, must have a complete blood study within 48 hours of the surgery. Unusual anemias and low hemoglobin are readily recognized. An inherited bleeding tendency is usually known to the parents long before the time of operation. This is immediately relayed to the surgeon.

When doctors suspect an infection is brewing, they will cancel the operation of tonsillectomy to avoid this and other forms of complication.

So rare is post-operative bleeding that it is never really considered as a serious possibility. If it does occur at any time after the operation there is little or no danger. It is merely an unpleasant situation. The child must be given calm support by the surgeon and the parents, so that no psychological scars will be left in later years.

Supporting hose is of great benefit to people who stand on their feet all day.

TODAY In History

By KEN HARTNETT (For Hal Boyle)

MILWAUKEE, Wis. (AP) — She wears her hair long and her skirts short and her eyes are wise, sad, glazed but still innocent.

She is a seeker after simplicity but her life is an endless complication. Her creed is to hurt no one but she constantly hurts herself. Life, she says, is pain; and suicide she accepts as an option for later, but not now. There is too much life yet to be tasted; too many experiments yet to be tried; too much pain to sift for meaning.

Her name, not her real name, is Ursula.

Girls who resemble her are returning to campuses all across the nation this month. They are part of a growing army of the alienated.

Ursula spent her summer in Canada. She thought it would be cool to spend time observing the profusion of symbols of the mechanized, computerized society she can't abide.

Boredom set in and sent her to Mexico. She could have gone to Lon-

don or Athens or Paris. That will come later.

Her life is a conscious pursuit of the individual self but her style falls into a shared pattern of pot, promiscuity and petty crime. She is stamped a hippie and judged. Dropping out of one society, she drops into another.

Ursula is tall, rawboned and nearly beautiful. In her freshman year in college, she had started out to be a psychiatrist, she began sleeping with a graduate student. He moved on. She began sleeping around. She still considers herself innocent but adds with a touch of sadness, "I find myself constantly redefining what I mean by innocence."

The daughter of professional people, Ursula's intelligence quotient is in the 150s. She was a leading student in her high school class. She was active in school clubs. She liked science. She liked drama.

But in college something happened. "I became aware. I became open. I began to search for myself," she said.

Ursula's parents were of little

help to her even before college. Her home life was painful. Her mother had lovers. Her father had mistresses. Eventually, they had a divorce. Ursula doesn't blame them. She doesn't pity herself. She says she accepts, she understands, she forgives. Her anger is reserved for less personal things—the war in Vietnam, racial hatred.

God or the traditional idea of God is irrelevant to her. The solace to be plucked from a cold and barren universe is love and love alone. "I want to write. I want to write a long novel about love," she said as a freshman. She is now a junior and she has collected her material. But the energy for the long novel isn't there. So she writes poetry, love poetry, but talks with contempt of her lovers.

At a party, she danced in bare feet and wore flowers in her hair. The windows were open, but the smell of pot was there.

Her friends sat on the floor and devoured a watermelon as if it were the source of life.

Ursula danced and danced, and her loneliness was utter.

The World Today

By JAMES MARLOW

WASHINGTON (AP) — What after Vietnam?

The United States suffered anguish over the Korean war, with its cost in lives, money and even prestige badly dappled after the Chinese victory at the Yalu River.

After that it seemed unthinkable this country would get involved in another Asian war any time soon. But within less than 10 years it was starting down the same road in Vietnam.

Now there is so much anguish, handwringing and argument over this war that almost no public figure is talking about the part of the United States will play, if any, when this conflict is over and new Vietnam occurs.

There is one reasonable explanation for that. The men involved in the intense dispute over the rightness and wrongness of this war have little time for thinking about the next one.

But, since the future is coming and the Vietnamese war will be over some day, there will inevitably be a whole new argument, no doubt intense, about whether this country should ever get similarly embroiled.

And out of the distaste for foreign entanglements will surely come a new yearning for a return to American isolationism.

The Communist world, even though split, would take such action as an invitation to adventure if it believes the United States will not aid a nation, particularly a backward one, which is imperiled by Red aggression or subversion.

And that would mean all the effort which went into Vietnam to stop the spread of Communism will have been wasted. Yet, the United States can't afford to be at war, big or little, endlessly.

Therefore, new plans and new policies about the American role in the world will have to emerge when the Vietnamese war is over to avoid American involvement in new wars and yet discourage and prevent new Red aggressions.

Former Vice President Richard M. Nixon, in the autumn edition of the magazine Foreign Affairs Quarterly, has tried his hand at thinking about the coming problems.

He foresees after Vietnam a great American reluctance to leap in to stop an attempted Communist takeover in Asia, Africa or Latin America, even if asked to by a besieged nation. He doesn't rule out the possibility this country would do what it has done in Vietnam but suggests that in the future the American role as world policeman will be limited.

Nixon suggests that in the future nations within a certain area must band together in a collective effort to stop Red aggression and then, only if their effort fails, will they be able to call on the United States for aid.

Roughly, that's what he says. But he acknowledges the uncertainties of trying to see into the Asian future until Red China changes. The world cannot be safe until it does change, he says.

Yet, any speculation now about America's willingness or unwillingness to take on new wars may be useless since there is a double uncertainty about Red China.

In the first place, it is deliv-

mon market wound up in London.

One year ago — Pope Paul called for a settlement in Viet Nam, before it becomes too late.

oping nuclear weapons. Soon it should be well supplied with them and with the missiles to deliver them. How China can be contained then is a whole new problem, depending in part on what China is like then.

Right now even that is unpredictable since it is in political chaos, with no one, least of all the Chinese themselves, able to say what kind of government and leadership they will have when the present chaos ends.

Sherwood Debuts

LOS ANGELES (AP)—"I hope I make it," says Gale Sherwood of her debut tonight in a lavish new production of "Showboat" at the Music Center.

"My understudy keeps tripping me as I go by," she says with a rueful smile. "And yesterday I fell off the piano."

But there's little doubt that she will be onstage in her role as Julie for the Civic Light Opera. After 15 years of trouncing the world as Nelson Eddy's partner, the show-must-go-on spirit is ingrained on her character.

Miss Sherwood's long association with Eddy came to an end March 5 when the famed baritone died at 65 in Miami. At first she was lost.

"If Nelson had been ill for a while, I might have had some time to think about the future," she commented between final rehearsals with Pat O'Brien, Eddie Foy Jr., Eileen Christy and other cast members.

"But he suffered a stroke onstage, and six hours later he was dead. I was at his bedside when he died."

"I had offers to go out as a single immediately afterward. But I didn't feel like working. I wasn't sure that I ever wanted to work again, and for five

months I did nothing. Then the chance to play 'Showboat' came along."

"Even then, I wasn't sure I wanted to work. But at least I would play the more interesting role of Julie and I'd have two good songs—'Bill' and 'Can't Help Lovin' that Man of Mine.' Years ago in Sacramento I had played the innocuous role of Magnolia. So I decided to go back."

She's glad she did. Despite occasional shakes—"I've never gotten over being scared onstage"—she has been enjoying herself. The years with Eddy helped maintain her sense of humor. "I've always been something of a nut—in fact, that's my real name: Jacqueline Nutt."

Her mother changed the name at age 5, when Gale began appearing on Canadian radio. She was born in Hamilton, Ont., came to Hollywood when she was 8. She developed from child actress to mature soprano, appearing in movies, television, operettas and USO shows. But she never achieved star billing until a chance tryout for Eddy's Las Vegas act.

For 10 months a year they played night clubs and theaters throughout the U.S., Canada, Australia and elsewhere, and Miss Sherwood calculates she sang 58,000 duets with Eddy.

NEW YORK (AP) — Danny Thomas' weekly anthology series had its first "book show" Monday night, a slight derivative comedy that missed the mark on most counts, including the production of laughter.

It's inspiration was obviously Damon Runyon's work, but the NBC hour was arch when it should have been robust, self-consciously cute when it should have been outrageously funny.

Thomas was not convincing playing a compulsive gambler with a tip on a long shot at a time when his pregnant wife drags from him a promise never to gamble after the birth of their child.

There was a complicated plot about borrowing a diamond under false pretenses and hocking it to place bets on the horse.

The hour was sandwiched between two returning adventure series on the network. "The Man from U.N.C.L.E." and "I Spy" were both, by coincidence, involved with Greeks.

The brave U.N.C.L.E. agents—Robert Vaughn and David McCallum—this season have abandoned their light-hearted persiflage in the face of peril and play their parts like average pair of earnest super-

agents. The plot Monday night had them saving a Greek village from extinction at the hands of a Thrush agent raised from infancy to be a heartless murder machine.

"I Spy" did a bit better as far as Greece was concerned, at least in terms of camera work. Where "U.N.C.L.E." is shot on a Hollywood studio lot, the Robert Culp-Bill Cosby series is shot on location, and the back-grounds in Greece were beautiful.

The story, alas, was confusing and the slender plot was dragged out almost to the snapping point. The not-so-secret agents were in Casablanca, assigned to go to Greece and rescue an agent who had been helping children escape across the Bulgarian frontier. It took most of the first hour-hour to get the jaunty agents out of Casablanca and the rescue of the agent filled—but barely—the remaining 30.

ABC will drop its morning "Dateline: Hollywood" early next month after 26 weeks and its "Honeymoon Race" after an even shorter run. Replacements on Oct. 2 will be a pair of game shows—"Temptation" and "How's Your Mother-in-law?"

The latter will be the fifth game show produced by Chuck Barris. His others are "The Dating Game," "The Newlywed Game," "The Family Game" and "Dream Girl of '67." He has become the biggest thing in daytime television since the days of Goodson-Todman and their numerous game and panel shows.

The Business World

By JOHN CUNIFF

NEW YORK (AP) — Shippers the world over are now developing the concept of containerization, which is the skill of loading a standard-size container to the same capacity as a vacationer loads his suitcase.

By combining scores of small shipments into one big container measured to fit the dimensions of planes, railroads, ships and trucks, cargo handlers believe they can change this staid old industry.

The containers, most of them metal range in length from less than 10 feet to about 40 feet.

Already shippers claim they are saving millions of dollars for themselves and customers. Old ports are adapting their dockside facilities. And the new jumbo jets soon to be in the air are being built with containers in mind.

The concept provides obvious savings. One 2,000-pound container, for example, costs far

less to handle than ten 200-pound packers with the same destination.

Other possible advantages are numerous: less pilferage, less paper work, lower insurance rates, easier customs clearance, speed, and the ability to use the containers on rail ship, plane or truck.

This interchanging of the container among different modes of transportation provides a customer with door-to-door movement of his goods without repacking or rehandling. The container remains sealed.

A metal container that begins its trip on a domestic railroad as a piggy-back car may cross the Atlantic in the hold of a ship and then be attached to a tractor-trailer and hauled through Europe by road.

The speed with which this concept is catching on was discussed this month at the Transportation Research Forum in

Montreal, where officials from 10 nations gathered.

One of these, James Crowley of Moore-McCormack Lines, told the audience that U.S. flag shipowners already had invested \$160 million in container ships and equipment and by mid-1969 will have spent \$900 million.

No matter how successful, however, the new industry is suffering many growing pains.

Some customers, for instance, have been disturbed to find their goods severely damaged, even though the container might never have been opened at any time during shipment. In other words, shippers still must develop skill in packing.

Shippers also are learning at packing for different transportation modes presents special problems. Cargo packed for an ocean voyage, for instance, must withstand much rolling and pitching.

Debray: Guerrilla Activist

By JOHN CHAMBERLAIN
Rome—The fate of the 27-year-old French intellectual, Régis Debray, a Marxist theoretician and friend of Fidel Castro who is being tried in Bolivia on charges of engaging in guerrilla warfare against the government, is becoming something of a European cause célèbre. The Paris newspapers have printed tear-jerking accounts of the rescue trip undertaken by Debray's conservative parents to the Bolivian jungle town of Camiri to protest their son's harmlessness. And the Pope, according to reports current in Rome, has issued his own appeal to the Bolivian government for clemency.

The situation is a strange one, for sympathy goes out to the man from both the European Left and the Right. This is an oddity, for Debray's open aim is to do the bourgeoisie in and by the most violent means if necessary. Yet the dilemma posed by the case is real enough. Debray, a super-radical pamphleteer and prophet of the Maoist revolution, is obviously intelligent within the confines of a philosophy that represents a disaster to the human race. Since freedom of thought is something to be prized, and since Europe is committed beyond most parts of the world to maintaining this free-

dom, the drive to "save Debray" has its positive side.

On the other hand, Debray could be the classic example of the man who wants to eat his cake and have it. If the Bolivian charges have any truth, he was not seized because of his words but because of his actions. If he has taken part in armed insurrection and robbery, as the Bolivians have contended, he is not being persecuted because of things of the mind any more than Al Capone was so persecuted in the Chicago of the Nineteen Twenties.

Debray's words, of course, are very much against him, for in his writings, which have been popular in Cuba, he has been contemptuous of mere intellectuals who are afraid of living their theories. One of the incendiary theses advanced in his book, "Revolution Inside Revolution," is that the philosopher of revolutionary overturn should also study and practice the art of insurrection. And the question, in Bolivia, is whether a man who has urged writers to become guerrillas has been living according to his own precepts. If Debray has been doing this, old Europe has no right to become outraged over the young man's fate. But if he hasn't been doing it, his reputation for intellectual honesty must inevitably be compromised.

After writing his articles celebrating the writer as revolutionary doer, Debray's claim that he went to Bolivia just to find and interview his hero, the missing Che Guevara, must seem disingenuous, to say the least. Disingenuous men don't make good martyrs, for the phony streak always shows.

The Debray case, as I wrote many weeks ago when Daniel James, the Mexico City authority on Latin American subversion, first brought it to my attention, poses a problem that is becoming more and more important to North as well as to South America. For what are Stokely Carmichael and R. A. Brown if they are not Debray's own — intellectual brothers?

They go around scoffing at Uncle Tom Negro intellectuals who want peaceful change. They urge the young generation to

take the lead in the skirmishes that have been making the central cities of the United States hideous. Rap Brown says a town ought to be burned down, and someone forthwith lights a fire. Brown is indicted for carrying a gun across state lines in defiance of the law. Must we wait until all our cities are destroyed before we decide that the First Amendment doesn't give intellectuals the right to prod the man with the match and the Molotov cocktail?

As the writer who was known as "Max Nomad" observed some thirty years ago, "The Kaiser and Czar were liberals." They sometimes banished writers to exile or to Siberia, but they mercifully didn't kill them. So theorists like Lenin, Trotsky, and Mussolini, who were the Regis Debrays of their day insofar as they believe in uniting revolutionary philosophy with insurrectionary action, lived to overthrow their governments. Once in power, they had no compunctions about killing writers who were against them.

Europe is right to be concerned with freedom for the mind. But, remembering the past, it should resist the urge to go overboard in the case of a young man whose ideal is not the writer but the guerrilla with the gun.

Teams of Republican and Democratic senators will meet in tennis combat in Washington sometime in late September. We haven't the slightest idea what the net result will be.

On reading about that upcoming tennis tiff, Aitch Kay says he thinks it's high time the rival solons took each other to some kind of court.

At least, adds the man at the next desk, this proves the rival senators are not exactly aces high with their opposition colleagues.

How Weather Looks Today

OHIO WEATHER SUMMARY
COLUMBUS, Ohio (AP) — Official Weather Bureau summary of Ohio's weather:

A few light showers moved into western and southern Ohio Monday night, but to the northeast skies remained clear. Rainfall amounts were mostly too light to measure, but the chance of showers will increase by Wednesday.

Early morning temperatures today ranged from 51 at Youngstown, under clear skies, to 69 at Cincinnati under a cloudy sky. Winds were mostly light to calm during the night and will remain light today. Afternoon temperatures will climb into the mid 70s north and the low 80s to the south. Continued mild weather is expected tonight and Wednesday.

FORECASTS

OHIO—Mostly cloudy tonight and Wednesday with widely scattered showers. Low tonight 55-65.

CENTRAL OHIO — Mostly cloudy and continued warm with chance of widely scattered showers through Wednesday. High today and Wednesday low 80s, low tonight low 60s.

SOUTHEAST OHIO—Variable cloudiness, continued warm with chance of scattered showers or thundershowers through Wednesday. High today and Wednesday mid 80s, low tonight in 60s.

SOUTHWEST OHIO — Considerable cloudiness, little change in temperature with chance of scattered showers or thundershowers. Low tonight 60-65.

NORTHWEST OHIO — Considerable cloudiness and little change in temperature through Wednesday. A few light showers likely. Low tonight 56-60.

Girl Scouts Participate In Many Varied Activities

CAMP MISKA — This is a typical group of Girl Scouts during a camping session this summer at Camp Miska in Saltcreek Twp. Camping is just one of the many phases of Girl Scouting in Pickaway County.

EDITOR'S NOTE: This is one of a series of articles designed to acquaint residents of Pickaway County with the functions of Community Fund participating agencies. The campaign this year will be conducted Sept. 25 to Oct. 9. The goal is \$50,000.

The mission of Girl Scouting is to inspire girls with the highest ideals of character, conduct, patriotism and service that they may become happy and resourceful citizens.

Girl Scouting offers girls from 7 to 17 a single, continuing program of activities centered around the arts, the home and the out-of-doors. The program is geared to the needs and interest of girls at each of four age levels: Brownie Girl Scouts (ages 7 and 8); Junior Girl Scouts (9-11); Cadette Girl Scouts (12-14); and Senior Girl Scouts (ages 15-17).

In Pickaway County, Girl Scouting is divided into three neighborhoods with troops in Circleville, Ashville, Williamsport and Saltcreek Twp. The total of 23 active troops made up of 471 girls and 125 interested adult volunteers carries on an impressive program. Mrs. Charles Brackett, district chairman, is assisted by Mrs. James Irwin of Ashville, Mrs. Stephen Sills of Five Trails as well as many dedicated leaders of the Logan Elm neighborhood in directing the local program.

Camping is a very vital part of the Girl Scout program and several types of camping are shared and enjoyed by the girls in the area. More than 80 Scouts attended day camp at Miska (located on the Lyman Penn farm in Saltcreek Twp.) this year. The program was under the directorship of Mrs. Jerry Williams and a group of volunteers. Mrs. James Irwin of Ashville was director of a camping session at Blacklick Woods Metropolitan Park, Columbus, and over 40 girls from Pickaway County attended. Several troops took advantage of Camp Miska and other campsites available to them through the affiliation with the Seal of Ohio Girl Scout Council to plan overnight and weekend camping trips. In addition to these troop activities, many local girls traveled to established camps (two weeks or longer periods) in our council area. At these camps they were able to hike, live in the out of doors and were in-

structed in swimming, life-saving and crafts.

ONE senior scout spent weeks at Camp Ken Jockety which is west of Columbus as a leader-in-training and completed work as a counselor in training before the year before at Camp Arrowhead in Jackson, Ohio. She is now qualified to be an assistant leader for a troop of younger girls and to work as a counselor at Girl Scout camps. This is a direct result of the training and leadership that she has been given in her ten years as a Scout.

Scouting is for adults too! Both men and women are needed. They serve as leaders or program consultants; as members of boards of directors; as finance committees, camp committees, troop committees, or in some other positions of voluntary leadership. Training such as the day camp instruction received by 18 local adults this year is available in all phases of adult scouting through our participation in the Seal of Ohio Council with headquarters in Columbus.

Girl Scouts do not camp all the time, but have carried out programs on all levels. Brownies have learned skills, self-reliance and learned new meanings in loyalty, fairness and honesty. Junior scouts have worked in patrols on badges and services available in 10 program fields. Cadette troops accept challenges and earn badges. Senior troops earn program aide bars for accomplishments.

Girl Scouts have rendered services to the community in the usual and in some unusual ways. Seniors have served as hospital aides, library aides, teacher aides. They have done baby sitting for voters on election days, have helped with younger troops by conducting programs and teaching skills. Troops have prepared and displayed exhibits at the County Fair and Pumpkin Show and have participated in the Memorial Day, Fourth of July and Pumpkin Show parades; prepared 1800 tray favors for the V.A. Hospital, helped with material for the Tuberculosis Society and Community Fund campaigns, took part in Project Handicap of the United States Navy to send packets for servicemen in Vietnam, they have dressed dolls for the annual Dolly Derby to be distributed at Christ-

mas time, gone caroling at Christmas to shut-ins and nursing homes, made toys for the retarded children's school and have helped in several local beautification projects.

Contribution to the Community Fund will assure a full program for the coming year. It will enable more girls to participate in activities designed to help them develop self-reliance, integrity, dependability, concern for others, initiative and whatever native talents they possess. Girl Scouts will be so busy with activities that are challenging and fun and exciting (and constructive) that they'll have no time nor energy nor interest left over for the other kind of behavior. You can count on a Girl Scout — CAN SHE COUNT ON YOU?

Juvenile Motorist Appears in Court

Pickaway County Juvenile Court had one traffic offender on its docket Monday.

Jerry Ratcliff, 17, of Stoutsville, failed to stop for a traffic light. A fine of \$10 and costs plus suspension of his license for one month was ordered by Judge Guy Cline. The fine was suspended.

He was ordered to attend Traffic Safety School.

Stray Bullet Kills Train Conductor

CLEVELAND (AP) — A 40-year-old Pennsylvania Railroad conductor died early today of a gunshot wound suffered late Monday night when he was struck by what police said apparently was a stray bullet fired by a policeman at a fleeing motorist.

The victim, James Huffman of Eastlake, was taken to St. Luke's Hospital.

Police said ballistics tests would be made to determine if it was the policeman's bullet that wounded Huffman.

The bullet was believed to have been fired by motorcycle patrolman Richard Galaska, who was chasing a motorist on Fort Avenue near East 83rd Street.

Galaska had stopped the motorist, James Whitted, 39, Cleveland, on a suspected traffic violation at East 82nd Street and Kinsman Road, S.E., and had handcuffed Whitted's left hand to the driver's side door and had taken the ignition keys. Galaska went to his motorcycle to call for assistance when the suspect got into his car and, apparently using a spare set of keys drove away.

Whitted was arrested after his car struck a bridge abutment near Kinsman.

Berger Treats 3 Emergencies

Three persons received emergency care Monday at Berger Hospital. All three were released following treatment.

Larry Stonerock, 17, of 365 Brown St., received third degree burns on his face and arms from a hot water hose while at work.

Robert Loy, 12, son of Mr. and Mrs. Robert Loy, Route 2, punctured his right elbow with a hay hook.

Nancy Gildersleeve, 13, daughter of Mr. and Mrs. Eugene Gildersleeve, Route 4, fell from a horse and was treated for abrasions of her left arm and knee.

Musicians Question New Contract

CLEVELAND (AP) — Cleveland Orchestra musicians have authorized their attorney to take legal action challenging the validity of their new contract with the Musical Arts Association.

According to a statement issued Monday bought by Bernard A. Berkman, attorney for the musicians, the players will abide by the contract pending the outcome of the action.

Bitterness has been expressed by some of the musicians over the haste in which the contract was signed and also over what they claims was an illegal vote.

The musicians voted 50-42 to accept the contract an hour after it was approved Sunday by Local 4 of the American Federation of Musicians and the Musical Arts Association.

The code was by less than the 60 per cent margin musicians said they believed was needed for acceptance. A 100 per cent vote was needed for the strike vote in May.

Anthony A. Granata, Local 4 president, said Sunday that the Executive Board had adopted a resolution Thursday saying that the vote on the contract would be decided by a simple majority.

Kiwanis Hears F. J. Milligan

Fred J. Milligan, a Columbus attorney and president of the Ohio Information Committee, was guest speaker at the Circleville Kiwanis Club meeting Monday.

Milligan's talk, "The Summer of Discontent," told of the various changes that have taken place in the United States in the 180 years since the signing of the Constitution. He also announced that Jack Dunlap, Pickaway County Trustee, is vice president of the Ohio Information Committee.

In other Kiwanis business, Circleville High School Key Club member Brock Bell explained plans for a Vocational Guidance Program and asked the aid of the Kiwanians to work with students.

Tom Downing explained Kid's Day at Lockbourne Air Force Base is Sept. 24. Parents wishing to take their children are welcome to attend.

The next meeting will be Monday, 5:30 p.m. when the Kiwanians will join the Sertoma Club for a tour of DuPont and a steak dinner.

Guests at Monday's meeting were Dr. Robert Smith and Key Clubbers Jack White, Randy Weller and Steve Nelson.

Saigon . . .

(Continued from Page 1)
Vi rail yards 37 miles northeast of the capital and a highway bridge one mile farther north-east.

At a Saigon news conference today the U.S. Air Force commander in Vietnam, Lt. Gen. William Momyer declared that continued heavy bombing of North Vietnam and intense combat pressure in the South was the quickest way to win the war.

The two-story embassy building was shattered in front of crowds of people on Saigon streets this morning with an explosion heard throughout the center of Saigon. One wall was blown down, the ceiling collapsed and the ground floor was in ruins.

The person who died was a pedestrian. The wounded were mostly embassy staffers but included four Chinese working in a bank adjoining the embassy.

The raids on Haiphong Monday were the third since Sept. 11. All were aimed at four main targets within the city—two main bridges channeling traffic toward Hanoi, the main rail yard and a warehouse complex.

Secretary of State Dean Rusk repeated the Johnson administration stand Monday that the United States is ready to negotiate with Hanoi if the North Vietnamese indicate a readiness to do something constructive toward end the war.

Rusk, speaking at a luncheon in Detroit, thus addressed himself indirectly to the furor that was touched off when Harry S. Ashmore, executive vice president of the Center for the Study of Democratic Institutions, charged President Johnson wrecked a promising peace bid.

After a meeting with North Vietnam's Ho Chi Minh in January, Ashmore said he drafted a letter to Ho sent through the State Department declaring U.S. readiness for secret talks shortly before Ashmore's letter arrived. He received a message from Johnson saying American bombing of the North would stop "as soon as I am assured that infiltration in South Vietnam by land and by sea has stopped."

Crowd Seeks Vision

QUEBEC (AP) — Hundreds continue to crowd into a tiny grotto where 8-year-old Johanne Allison says she saw the Virgin Mary Friday afternoon.

Quebec streets were heavily jammed over the weekend as word of Johanne's vision spread. The girl said the Virgin told her she would appear again Sunday noon but nothing happened and Johanne blamed it on the crowds.

Teacher Strike To Be Prolonged

NEW YORK (AP) — Negotiators for both sides in the week-old strike by New York City teachers against the 1.1-million-pupil public school system ceased today without agreement, dimming earlier optimism for a possible break.

"It is 3 a. m.," said Mayor John V. Lindsay as the talks at Gracie Mansion broke off. "No agreement having been reached, I have recessed the talks until 3 p.m. today."

Albert Shanker, president of the striking AFL-CIO United Federation of Teachers, later told newsmen, "The Board of Education and the city must come up with more money."

Earlier the 1,100-member Assistant Principals Association, which has urged its members to conduct classes during the strike, reversed itself and called on the board to close all schools by Wednesday.

Betty Ostroff, president of the association, said the change in policy resulted from what she termed "a horrible week, where conditions in the schools were not safe and not right. It has

been a charade this past week."

She said the association would urge its members to stay away from the city's 900 schools if the board did not comply with the request.

Talks at the mayor's residence had been going on since 6 p.m. The strike for higher wages and a greater voice in policy matters and classroom controls began Sept. 11; the scheduled opening of the fall term. Formal instruction has been almost nonexistent and attendance has fallen below 350,000 children.

The UFT sought a wage scale of \$7,500 to \$18,000 a year for teachers to replace the current salary range of \$5,400 to \$11,950. The package rejected by the UFT called for a scale from \$6,600 to \$13,600.

Wake Up Your PERISTALSIS And Be Your SMILING BEST

Peristalsis is the muscular action of your digestive system. When peristaltic action slows down, waste materials can build up in the lower tract. You can become irregular, uncomfortable, stuffed.

The unique laxative formula of today's Carter's Pills gives effective, temporary relief of the irregularity by activating the slowed-down muscles of the lower tract and stimulating peristalsis.

So if you're sluggish due to irregularity, take Carter's Pills to wake up your peristalsis and you'll bounce back to your smiling best. Millions of satisfied users take Carter's Pills for effective temporary relief of irregularity. Why don't you. 49¢.

Kingston Seeks 2-Lot Annexation

A request for annexation of two lots to the Village of Kingston will be heard on Nov. 6.

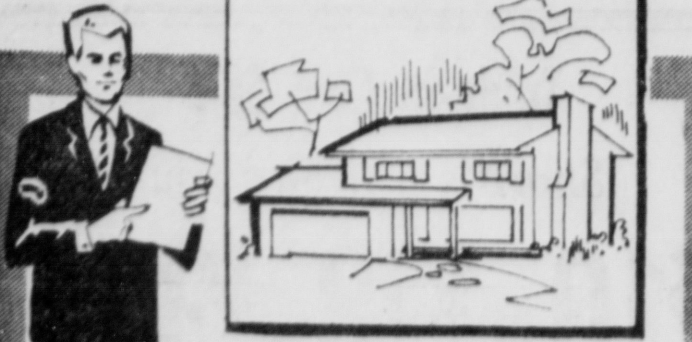

The lots, totaling .64 acres, are located on Route 159 north-east of the Kingston corporation limit. They are owned by Homer and Cleo Kohberger.

Following the hearing, should the county commissioners agree to release the property, Kingston officials must wait 60 days before holding a final hearing on the annexation.

The total of 23 active troops made up of 471 girls and 125 interested adult volunteers carries on an impressive program. Mrs. Charles Brackett, district chairman, is assisted by Mrs. James Irwin of Ashville, Mrs. Stephen Sills of Five Trails as well as many dedicated leaders of the Logan Elm neighborhood in directing the local program.

Camping is a very vital part of the Girl Scout program and several types of camping are shared and enjoyed by the girls in the area. More than 80 Scouts attended day camp at Miska (located on the Lyman Penn farm in Saltcreek Twp.) this year. The program was under the directorship of Mrs. Jerry Williams and a group of volunteers. Mrs. James Irwin of Ashville was director of a camping session at Blacklick Woods Metropolitan Park, Columbus, and over 40 girls from Pickaway County attended. Several troops took advantage of Camp Miska and other campsites available to them through the affiliation with the Seal of Ohio Girl Scout Council to plan overnight and weekend camping trips. In addition to these troop activities, many local girls traveled to established camps (two weeks or longer periods) in our council area. At these camps they were able to hike, live in the out of doors and were in-

structed in swimming, life-saving and crafts.

ONE senior scout spent weeks at Camp Ken Jockety which is west of Columbus as a leader-in-training and completed work as a counsellor in training before the year before at Camp Arrowhead in Jackson, Ohio. She is now qualified to be an assistant leader for a troop of younger girls and to work as a counsellor at Girl Scout camps. This is a direct result of the training and leadership that she has been given in her ten years as a Scout.

Scouting is for adults too! Both men and women are needed. They serve as leaders or program consultants; as members of boards of directors; finance committees, camp committees, troop committees, or in some other positions of voluntary leadership. Training such as the day camp instruction received by 18 local adults this year is available in all phases of adult scouting through our participation in the Seal of Ohio Council with headquarters in Columbus.

Girl Scouts do not camp all the time, but have carried out programs on all levels. Brownies have learned skills, self-reliance and learned new meanings in loyalty, fairness and honesty. Junior scouts have worked in patrols on badges and services available in 10 program fields. Cadette troops accept challenges and earn badges. Senior troops earn program aide bars for accomplishments.

Girl Scouts have rendered services to the community in the usual and in some unusual ways. Seniors have served as hospital aides, library aides, teacher aides. They have done baby sitting for voters on election days, have helped with younger troops by conducting programs and teaching skills. Troops have prepared and displayed exhibits at the County Fair and Pumpkin Show and have participated in the Memorial Day, Fourth of July and Pumpkin Show parades; prepared 1800 tray favors for the V.A. Hospital, helped with material for the Tuberculosis Society and Community Fund campaigns, took part in Project Handicap of the United States Navy to send packets for servicemen in Vietnam, they have dressed dolls for the annual Dolly Derby to be distributed at Christ-

Stray Bullet Kills Train Conductor

CLEVELAND (AP) — A 40-year-old Pennsylvania Railroad conductor died early today of a gunshot wound suffered late Monday night when he was struck by what police said apparently was a stray bullet fired by a policeman at a fleeing motorist.

The victim, James Huffman of Eastlake, was taken to St. Luke's Hospital.

Police said ballistics tests would be made to determine if it was the policeman's bullet that wounded Huffman.

The bullet was believed to have been fired by motorcycle patrolman Richard Galaska, who was chasing a motorist on Fort Avenue near East 83rd Street.

Galaska had stopped the motorist, James Whitted, 39, Cleveland, on a suspected traffic violation at East 82nd Street and Kinsman Road, S.E., and had handcuffed Whitted's left hand to the driver's side door and had taken the ignition keys. Galaska went to his motorcycle to call for assistance when the suspect got into his car and, apparently using a spare set of keys drove away.

Whitted was arrested after his car struck a bridge abutment near Kinsman.

Berger Treats 3 Emergencies

Three persons received emergency care Monday at Berger Hospital. All three were released following treatment.

Larry Stonerock, 17, of 365 Brown St., received third degree burns on his face and arms from a hot water hose while at work.

Robert Loy, 12, son of Mr. and Mrs. Robert Loy, Route 2, punctured his right elbow with a hay hook.

Nancy Gildersleeve, 13, daughter of Mr. and Mrs. Eugene Gildersleeve, Route 4, fell from a horse and was treated for abrasions of her left arm and knee.

Musicians Question New Contract

CLEVELAND (AP) — Cleveland Orchestra musicians have authorized their attorney to take legal action challenging the validity of their new contract with the Musical Arts Association.

According to a statement issued Monday by Bernard A. Berkman, attorney for the musicians, the players will abide by the contract pending the outcome of the action.

Bitterness has been expressed by some of the musicians over the haste in which the contract was signed and also over what they claim was an illegal vote.

The musicians voted 50-42 to accept the contract an hour after it was approved Sunday by Local 4 of the American Federation of Musicians and the Musical Arts Association.

The code was by less than the 60 per cent margin musicians said they believed was needed for acceptance. A 100 per cent vote was needed for the strike vote in May.

Anthony A. Granata, Local 4 president, said Sunday that the Executive Board had adopted a resolution Thursday saying that the vote on the contract would be decided by a simple majority.

Kiwanis Hears F. J. Milligan

Fred J. Milligan, a Columbus attorney and president of the Ohio Information Committee, was guest speaker at the Circleville Kiwanis Club meeting Monday.

Milligan's talk, "The Summer of Discontent," told of the various changes that have taken place in the United States in the 180 years since the signing of the Constitution. He also announced that Jack Dunlap, Pickaway County Trustee, is vice president of the Ohio Information Committee.

In other Kiwanis business, Circleville High School Key Clubber Brock Bell explained plans for a Vocational Guidance Program and asked the aid of the Kiwanians to work with students.

Tom Downing explained Kid's Day at Lockbourne Air Force Base is Sept. 24. Parents wishing to take their children are welcome to attend.

The next meeting will be Monday, 5:30 p.m. when the Kiwanians will join the Sertoma Club for a tour of DuPont and a steak dinner.

Guests at Monday's meeting were Dr. Robert Smith and Key Clubbers Jack White, Randy Weller and Steve Nelson.

Saigon . . .

(Continued from Page 1)

Vi rail yards 37 miles northeast of the capital and a highway bridge one mile farther north-east.

At a Saigon news conference today the U.S. Air Force commander in Vietnam, Lt. Gen. William Momyer declared that continued heavy bombing of North Vietnam and intense combat pressure in the South was the quickest way to win the war.

The two-story embassy building was shattered in front of crowds of people on Saigon streets this morning with an explosion heard throughout the center of Saigon. One wall was blown down, the ceiling collapsed and the ground floor was in ruins.

The person who died was a pedestrian. The wounded were mostly embassy staffers but included four Chinese working in a bank adjoining the embassy.

The raids on Haiphong Monday were the third since Sept. 11. All were aimed at four main targets within the city—two main bridges channeling traffic toward Hanoi, the main rail yard and a warehouse complex.

Secretary of State Dean Rusk repeated the Johnson administration stand Monday that the United States is ready to negotiate with Hanoi if the North Vietnamese indicate a readiness to do something constructive toward end the war.

Rusk, speaking at a luncheon in Detroit, thus addressed himself indirectly to the furor that was touched off when Harry S. Ashmore, executive vice president of the Center for the Study of Democratic Institutions, charged President Johnson wrecked a promising peace bid.

After a meeting with North Vietnam's Ho Chi Minh in January, Ashmore said he drafted a letter to Ho sent through the State Department declaring U.S. readiness for secret talks shortly before Ashmore's letter arrived. He received a message from Johnson saying American bombing of the North would stop "as soon as I am assured that infiltration in South Vietnam by land and by sea has stopped."

Crowd Seeks Vision

QUEBEC (AP) — Hundreds continue to crowd into a tiny grotto where 8-year-old Johanne Allison says she saw the Virgin Mary Friday afternoon.

Quebec streets were heavily jammed over the weekend as word of Johanne's vision spread. The girl said the Virgin told her she would appear again Sunday noon but nothing happened and Johanne blamed it on the crowds.

Teacher Strike To Be Prolonged

NEW YORK (AP) — Negotiators for both sides in the week-old strike by New York City teachers against the 1.1-million-pupil public school system ceased today without agreement, dimming earlier optimism for a possible break.

"It is 3 a. m.," said Mayor John V. Lindsay as the talks at Gracie Mansion broke off. "No agreement having been reached, I have recessed the talks until 3 p.m. today."

Albert Shanker, president of the striking AFL-CIO United Federation of Teachers, later told newsmen, "The Board of Education and the city must come up with more money."

Earlier the 1,100-member Assistant Principals Association, which has urged its members to conduct classes during the strike, reversed itself and called on the board to close all schools by Wednesday.

Betty Ostroff, president of the association, said the change in policy resulted from what she termed "a horrible week, where conditions in the schools were not safe and not right. It has

been a charade this past week." She said the association would urge its members to stay away from the city's 900 schools if the board did not comply with the request.

Talks at the mayor's residence had been going on since 6 p.m.

The strike for higher wages and a greater voice in policy matters and classroom controls began Sept. 11; the scheduled opening of the fall term. Formal instruction has been almost nonexistent and attendance has fallen below 350,000 children.

The UFT sought a wage scale of \$7,500 to \$18,000 a year for teachers to replace the current salary range of \$5,400 to \$11,950. The package rejected by the UFT called for a scale from \$6,600 to \$13,600.

Trucker Strike
Seen Hurting
Steel Output

PITTSBURGH (AP)—A leader in the wildcat truckers' strike that is bottling steel production says the rebellious haulers will start picketing steel trucking companies.

"We have to get our demands from them," said E. J. Crowe, president of ASAC, Inc., of Pittsburgh and a chief organizer of the maverick group.

"If they can't afford it, then they got to raise their rates for the mills," he said Monday night following a meeting of some 1,200 truckers in nearby Glenfield.

The strike, now in its fourth week has cut into steel production in five states.

U.S. Steel Corp., Jones & Laughlin Steel Corp. and Republic Steel Corp. announced layoffs Monday, saying finished steel was backing up and jamming storage facilities. Earlier cutbacks were announced by Youngstown Sheet & Tube Co., Wheeling Steel Corp and Pittsburgh Steel Co.

The strikers are drivers who own their rigs and are members of the Teamsters Union, which has refused to comment on the dispute. The Central States Teamsters meets today in Chicago and it was possible the controversy would be discussed there.

"The main and big issue," said Crowe, "is a separate steel hauling contract voted on by steel haulers and drawn up for steel haulers." The owner-drivers now are paid under a national Teamsters agreement.

Crowe said the truckers also want a bigger percentage of the hauling cost, penalty payment if their rig is detained in a mill, payment by leasing companies for all license plates and federal and state taxes and improved hospitalization, pension and vacation plans.

The strike began at Gary, Ind., then spread east into Ohio, Pennsylvania, West Virginia and New York.

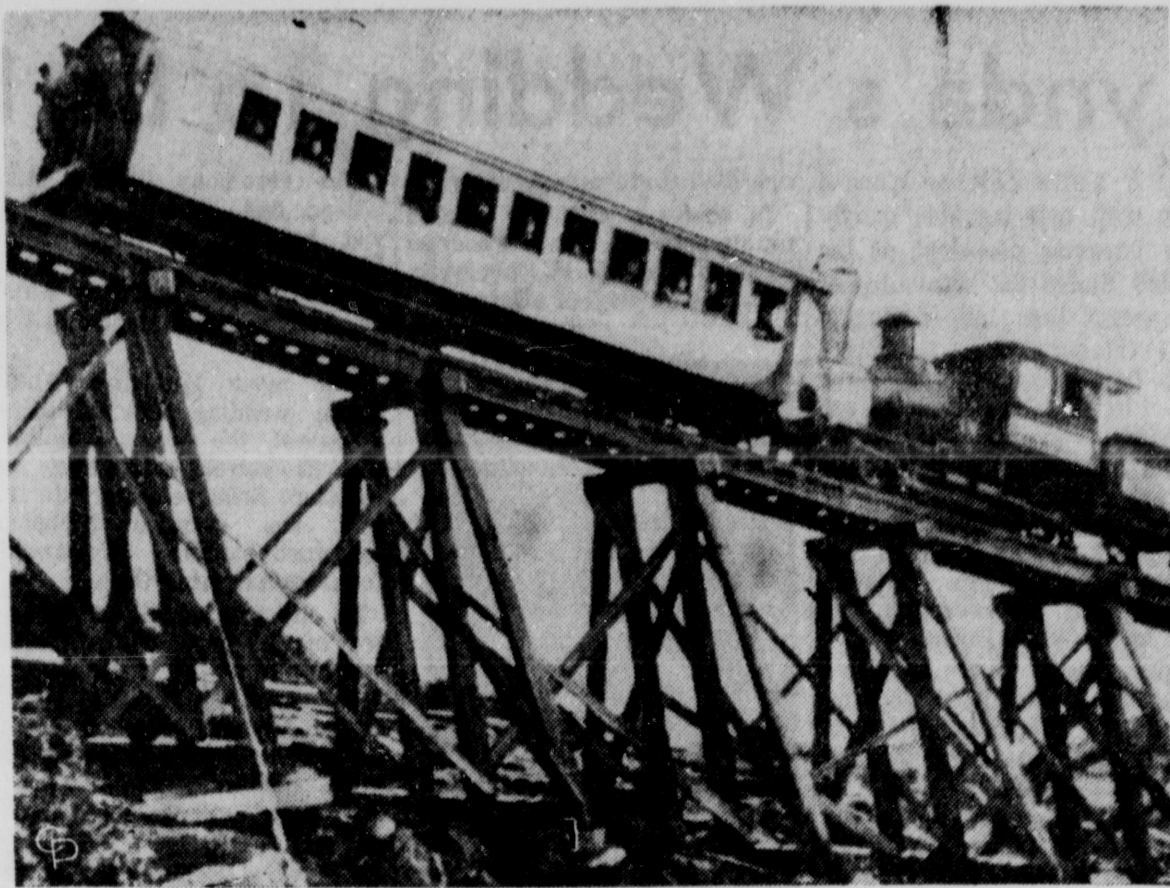

Publicity
Grounds for
New Trial

LIMA, Ohio (AP)—Ralph K. Forsythe, 50, convicted for manslaughter in 1957, will get a new trial due to adverse newspaper publicity, a judge ruled Monday.

The ruling was handed down by Lake County Common Pleas Court Judge Robert Simmons, sitting by assignment for a hearing on Forsythe's petition for a new trial.

"Forsythe was denied his rights to be tried, according to due process of the law, before an impartial jury," Judge Simmons said in his decision. He cited 26 occasions where newspapers referred to the Lima man's activities before his trial.

Forsythe, who was transferred from the Ohio Penitentiary to the Allen County Jail earlier this year, was convicted in the

Panel Debates
Train Merger

NEW YORK (AP)—A special three-judge federal court plans more hearings on the planned merger of the Pennsylvania and New York Central railroad.

The court listened Monday for more than four hours to the pros and cons of whether the two railroads should be allowed to put their merger into effect shortly.

The session was supposed to have been the "final" hearing on litigation enjoining the two roads from completing their merger and becoming the Penn-Central System.

But as court opened, Judge Henry J. Friendly, senior judge of the three-man court, announced that after a hearing on a related case Sept. 28 a date would be set for hearing arguments on continuation of the injunction against the merger.

During Monday's session, Friendly questioned Harry G. Sillick, a lawyer representing the Delaware and Hudson Railroad, on the position of the D & H on a Penn-Central merger.

Sillick replied that the D & H "opposes a Penn-Central merger until the D-H is assured of inclusion" in one of the major rail systems forming in the east.

The Interstate Commerce Commission ordered the Norfolk and Western Railway last June to acquire the D & H, the Boston & Maine and the Erie-Lackawanna railroads. The N&W has brought suit to annul the ICC order. The D & H has brought suit to have the ICC order carried through. It is the latter suit that will be heard by the three-judge court on Sept. 28.

WASHINGTON (AP) — President Giuseppe Saragat of Italy has begun a round of talks with President Johnson after receiving a warm welcome Monday which was beamed to Italian television sets via communications satellite.

Officials said the two presidents would include in their discussions the future of NATO, the proposed nuclear non-proliferation treaty, arms control, the Middle East, and relations with developing countries.

WASHINGTON (AP) — The Central Intelligence Agency, long buffeted by critics, has come in from the cold on its 20th anniversary to receive a full measure of praise from the top.

The CIA, said President Johnson in an anniversary letter, is the best intelligence service in the world.

WASHINGTON (AP) — The earth will have its portrait taken in color next month from a camera mounted on a spacecraft orbiting 11,400 miles above its surface.

And, if all goes according to plan, the Apollo spacecraft will bring the actual negatives back from darkroom processing.

Previous photographs of the earth and moon taken by Surveyor and Lunar Orbiter spacecraft were relayed back to earth by radio telemetry, which lacks the clarity provided by actual film.

The 70MM camera on the Apollo IV is expected to capture the entire globe. Most previous pictures showed only the horizon.

New Cultural
Magazine Set
For Cincinnati

CINCINNATI (AP)—A new magazine featuring photographs and articles on Cincinnati's culture, events and people was unveiled Monday by the Cincinnati Chamber of Commerce.

The monthly magazine called "Cincinnati" will appear on newsstands Sept. 21.

Cincinnatians are the main readership target of the slick-paper magazine, but it will be available nationally to businessmen, with the idea of promoting Cincinnati as a base of operations. John W. Dazell Jr., editor of "Cincinnati" said.

According to the editor, Atlanta, Dayton, Baltimore, New Orleans and other cities put out such magazines.

The first edition will contain a story and pictures of old world-appearing Mount Adams, which overlooks the downtown area and Ohio River.

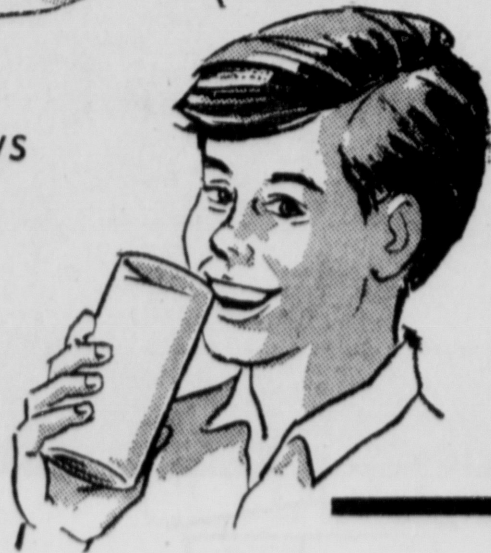

A calendar of events, personality sketches and departments of theater, business and movies will also appear in the magazine.

Two Are Charged
In Mail Theft;
One Is Mailman

CLEVELAND (AP) — Two men, including a mailman on sick leave, have been charged with possession of stolen mail following an alleged attempt to steal mail at a West Side drug store which serves as a post office sub-station.

Roger M. Gagnon, 29, of McDonald, Ohio, is held on \$10,000 bond after being bound over to U.S. District Court.

The mailman James A. Bamba, 27, of suburban Bgoklyn is held on \$5,000 bond pending a hearing before U.S. Commissioner Clifford E. Bruce. He was put on sick leave last month after he suffered two broken ribs when his mail truck turned over.

Asst. U.S. Atty. Robert J. Rotatori said Monday that Gagnon and Bamba were nabbed by postal inspectors shortly after attempting to steal mail from the Gray Drug Store at 1958 W. 25th St. on Sept. 8.

Rotatori said Gagnon, dressed in a mailman's uniform, collected three registered letters—one containing \$1,500 at the drugstore while Bamba waited outside in an automobile. The two were nabbed when Gagnon returned to the automobile, Rotatori said.

Smokers Taking Life In Hands, Says Doctor

DALLAS, Tex. (AP) — Cigarette smoking is such a health hazard that coupons good for medical care and funeral expenses should accompany their sale, says Dr. Howard S. Van Ordstrand.

The Cleveland, Ohio physician, speaking Monday at a medical symposium here on the "failing lung," advocated increasing taxes on cigarettes and increasing life insurance premiums for smokers.

Litterbugs are not a modern phenomenon. Archeologists report that when an ancient ship took shelter in a bay, the crewmen strewed the sea floor with pottery sherds, broken weapons and tools.

Deaf Man Perfects Midget Transistor Hearing Aid

If you can hear people talk and can't make out the words clearly then this may be the answer. An extremely small hearing aid using a tiny energized unit, has been perfected by a man who himself is hard of hearing and has been for over 10 years. If interested it is suggested you write A. W. Newell, 2616 W. 8th St., Erie, Pa. You will receive full information at no cost or obligation whatsoever.

Launches First Perch Derby

Rhodes' Promise To Help Tourism Sounds 'Fishy'

SANDUSKY, Ohio (AP)—Gov. James A. Rhodes ran up a heavy count Monday with the poles-fishing poles that is.

The governor launched the first annual Lake Erie Perch Derby. And, he took a group of newsmen and photographers to help him do it.

For two hours, they hauled perch aboard the fishing boat Watanna offshore between Sandusky and Port Clinton. When they quit they had landed 900 perch, give or take a few, that weighed exactly 220 pounds.

The governor and his party became so enthusiastic they kept civic leaders of Sandusky and Port Clinton waiting an hour for them to join them at a fish fry.

Once there, the governor reminded the community leaders they had a big business going in tourism—and that he was

going to help them keep it going.

"Lake Erie," he said, "has the best perch fishing in the country, bar none."

Then he went on to tell them what it meant in dollars. He estimated it was worth \$60 million this year.

This, he said, included money for fishing tackle, auxiliary equipment such as boats, motors, tents, fees, food and lodging.

In announcing a stepped-up fish management program for Lake Erie by the Division of Wildlife, the governor explained the fish restocking program under way.

Earlier, Fred E. Morr, director of the division, reported Ohio streams and lakes had been stocked with a billion fish in the last three and one-half years.

Governor's trophies will be awarded at the end of the 23-day Perch Derby—one to the adult catching the largest perch and one to the child under 12 catching the largest perch.

The governor and his party took off from Columbus by plane at 6:30 a.m. but fog delayed their landing for an hour. The governor, catnapping on the way home, deplaned still ready to talk about the advantages of Lake Erie fishing.

He mentioned the white bass and ice fishing, then added, "Eighty per cent of the people of Ohio don't realize how good the fishing is there. You ought to tell them."

NFO Grain Group Meets

The Pickaway County National Farmers Organization's Grain Bargaining committee held a meeting last Thursday night at Derby. County Chairman, Robert L. Drummond announced that the meeting was attended by 90 farmers and business people.

Dave Roberts, NFO grain division supervisor, explained the four NFO Grain programs, instant sales, harvest time sales, grain-sales, agreement and the grain bank.

The key to these four new NFO grain programs are for farmers to sign their grain as soon as it is harvested. This way the farmer is putting his grain in position along with other farmer's grain, to build volume with which to work.

Then the NFO Grain Dept. is able to bargain with this grain by letting a grain broker, which has signed the NFO Brokerage Agreement work to sell this grain to the best buyer.

Pickaway County Grain Bargaining Committee will meet once a week and for additional information contact County NFO Grain Chairman, Robert L. Drummond, Route 1, Orient.

Arraignments Held by Judge Ammer

Rape, assault, narcotics, and manslaughter were among the cases at an arraignment session before Pickaway County Judge William Ammer Saturday.

Three local men, John Fyffe, William Jackson, and Arthur Crosby, were arraigned on charges of carnal knowledge.

Fyffe and Jackson pleaded innocent. They remain under \$3000 bond each. Crosby's case was continued until Saturday, granting time for him to attain counsel.

Assault on a female under 16 was charged against Charles R. Keaton, who pleaded not guilty. Bond is \$1500.

RAPE charges were presented against Frank Daniels who entered a plea of innocent. Bond of \$2500 was continued.

Perry Moorman entered a plea of not guilty on a charge of buying exempt narcotics. Bond of \$2500 was continued.

Manslaughter charge were presented against Harold Wolford, who entered a plea of not guilty.

William Chaffin pleaded not guilty of second degree manslaughter charges.

The case against Robert Clayton Reynolds, charged with burning property to defraud, was continued indefinitely.

Forgery charges against Ronald Clark were continued until Tuesday.

Five cases charging failure to provide for minor children were brought before the court. Those so charged were: Roy Downing, who pleaded guilty; Jr. Martin McKenzie pleaded guilty as charged; the case against Larry Williams was continued till Tuesday; cases against Dale R. McCabe, and Teddy Pruching were held over till Saturday.

Two Are Killed In Ohio Traffic

By THE ASSOCIATED PRESS

A Middletown boy and a teenage Medina County girl are the latest victims of Ohio traffic.

The dead: Douglas Harper, 5, Middletown.

Kitty Doyle, 19, Brunswick, Medina County.

Young Harper was killed early Tuesday when a car driven by his father went out of control hit a guard rail and then a bridge on Ohio 4, south of Leesonsville. The father was not hurt seriously.

Miss Doyle was killed and three persons were hurt Monday night in a two-car collision at the intersection of Medina County Road 76 and U.S. 42.

The injured were Hughey Mack, 70, of Cue Creek, Pa., and his wife Gertrude, 66 both in fair condition at Medina Community Hospital and Linda Starey, 18, driver of the car in which Miss Doyle was riding, treated at the hospital and released.

Lynda's Wedding To Be Historic

NEW YORK (AP) — When a man with marriageable daughters becomes president of the United States the romantics of the world turn into dedicated beau-watchers. But for more than half a century they have hoped in vain for a White House wedding.

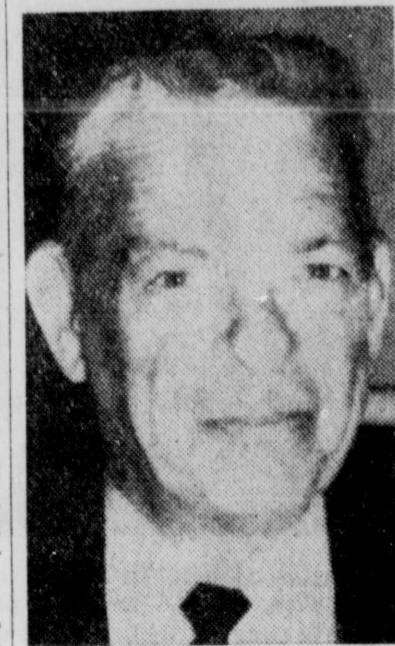

The Johnson girls, though, are changing all that. Luci Baines at 18 got married to Patrick J. Nugent in August, 1966, in a Roman Catholic church. But the reception was held in the White House.

Now Lynda Bird Johnson's plans for a December wedding at 1600 Pennsylvania Ave. should make the most diehard romantics happy.

When Lynda Bird, 23, weds Marine Capt. Charles S. Robb, 28, she will be the seventh daughter of a president to marry in the White House.

You have to go back to May, 1914, for No. 6. She was Eleanor Randolph Wilson, 24, youngest of President Woodrow Wilson's three daughters, and she married Secretary of the Treasury William McAdoo in a quiet Blue Room ceremony. Only a few friends and relatives were invited because of the illness of the First Lady, Ellen Wilson, who died three months later.

In contrast with her sister's simple nuptials, Jessie Woodrow Wilson's wedding in November, 1913, was an elegant affair.

SERTOMA SPEAKER—James Stanbaugh, Berger Hospital administrator, will be guest speaker at the Sertoma Club meeting Wednesday. Stanbaugh was assistant administrator of Grant Hospital, Columbus, before accepting the Berger post.

The ceremony uniting Miss Wilson and Francis B. Sayre was held in the larger East Room, attended by droves of diplomats and dignitaries, while the Marine Band played in the foyer.

The most glittering White House wedding starred Alice Roosevelt, the witty, uninhibited, 22-year-old daughter of Theodore Roosevelt. On Feb. 17, 1906, she married Nicholas Longworth, balding 36-year-old Congressman from Ohio.

No one took much public notice of the first White House wedding of a First Daughter. Press coverage, in its entirety, consisted of this sentence in the Washington Intelligencer of Saturday, March 11, 1820:

"Married: On Thursday evening last in this city by the Rev. Mr. Hawley, Samuel Lawrence Gouverneur, Esq., of New York, to Miss Maria Hester Monroe, youngest daughter of James Monroe, president of the United States."

Maria Monroe was 17 and Gouverneur was 28, her cousin,

her father's secretary and a dashing man about town. Lynda Bird Johnson may be the 16th bride to marry in the White House—besides presidents' daughters they include friends and relatives—but in history she is sure to have a lofty position on the list. There's something about a president giving away his little girl that captures the heart of a nation.

Bus, Truck Collide

CLEVELAND (AP)—Eighteen children were shaken up Monday when their school bus collided with a dump truck in Wickliffe. The bus driver, Charles E. Smith, 66, of Euclid, was cited for failure to maintain an assured, clear distance.

Three children were taken to Lake County Memorial Hospital West. They were treated and released. Fifteen others went to the hospital Monday night for treatment. There were about 20 children on the bus, on their way home from Wickliffe Junior High School.

NL Championship No Surprise to Cards' Manager

By HAL BOCK
Associated Press Sports Writer
Manager Red Schoendienst was the picture of serenity as the St. Louis Cardinals bathed each other in champagne after clinching the National League pennant with a 5-1 victory over Philadelphia Monday night.

And why not? After all, he's known they'd win since March. "I don't get excited," said the cool redhead after watching Bob Gibson throttle the Phillies on three hits to clinch the flag.

"I told only one guy in the spring that we were going to win the pennant," Schoendienst continued. "That was Danny Murtaugh one day when we played the Pirates in Fort Myers, Fla. I told him not to tell anybody but we were going to win."

The Cardinals didn't keep Schoendienst's secret very well. They soared to the top of the league in mid-June and have been in front ever since. Jolted by the loss of Gibson, who suffered a broken leg in mid-July, St. Louis refused to fold and instead broke the race apart with a string of 21 victories in 25 games.

Keys to the pennant victory were pitchers Dick Hughes, Steve Carlton and Nelson Briles, who picked up the slack when Gibson was hurt, and the acquisition of sluggers Orlando Cepeda and Roger Maris through trades.

Cepeda, traded by San Francisco for pitcher Ray Sadecki last summer, leads the league with 108 runs batted in and is batting .330. He danced through the happy clubhouse screaming "El Birdos—beautiful, beautiful, beautiful."

In other National League games Monday night, New York pounded Los Angeles 7-2, Hous-

ton rapped Pittsburgh 14-4 and Cincinnati blanked Atlanta 4-0.

In the American League, Boston topped Detroit 6-5 in 10 innings, Minnesota outlasted Kansas City 2-0 in 10 innings, Baltimore shut out New York 2-0 and California tripped Chicago 3-2. Boston, Detroit and Minnesota are all tied for first place, one-half game in front of Chicago, in the torrid American League race.

Gibson won his 13th game and third since recovering from his broken leg. He said his arm still wasn't at its best. "I need another outing and it will be all right," said Gibson, who was the hero of St. Louis' seven-game victory over New York in the 1964 World Series.

The Cardinals were held hitless through five innings by Dick Ellsworth but busted loose for four runs in the sixth. Dal Maxvill opened with a single, moved up on Gibson's sacrifice and scooted home on Lou Brock's double. Brock scored on Julian Javier's hit.

Curt Flood struck out but after Cepeda was purposely walked, Mike Shannon doubled Javier home. Cepeda also scored on the hit when Cookie Rojas threw wild on the relay.

Rookie Tom Seaver won his 15th game for the Mets, scattering eight hits as New York ended a seven-game losing streak. Ken Boswell, making his first big-league appearance, drove in two runs with a sacrifice fly and a double.

Deron Johnson and Tony Perez cracked home runs and Ted Abernathy saved his 25th game as Cincinnati blanked Atlanta. Mel Queen worked the first six innings for the Reds and won his 14th game.

Doug Rader smacked four Houston walloped Pittsburgh. Jimmy Wynn scored four runs as the Astros unloaded a 15-hit attack for their sixth straight victory.

Cincy Announces 2 Player Deals

CINCINNATI (AP) — The Cincinnati Reds announced Monday they have acquired a lefthanded pitcher and a combination first baseman-catcher.

They obtained pitcher Bill Henry, 25, from the New York Yankees and DeGlo Francis, 21, the catcher-first baseman, from the San Francisco Giants.

They will join the club next spring officials said. They also said infielder Len Boehmer, who played in three games with the Reds in 1967 and spent the rest of the season with Buffalo of the International League, has been sold to the Yankees' farm club at Syracuse.

Henry won eight and lost seven with Syracuse while compiling a 3.04 earned run average. With Waterbury in the Eastern League, Francis, a right-hander, hit 11 home runs and drove in 44 runs in 115 games.

Slip Away Captures Brown Jug Warmup

DELAWARE, Ohio (AP) — Slip Away, won the \$7,799 3-year-old Filly Pace here Monday in a preliminary to Thursday's Little Brown Jug.

Slip Away, daughter of Meadow Pace and driven by Del Miller, won the first heat and then placed third in the second heat to win.

Preseason Grid Favorites Lead In College Poll

By BEN OLAN
Associated Press Sports Writer
Victories by Southern California and UCLA during college football's initial big weekend have moved the West Coast teams into solid positions in the Associated Press poll.

The first poll of the regular 1967 season finds the Trojans in fourth place, a gain of three positions over their preseason rankings, and the Bruins in the No. 6 spot, two places higher than in the pre-campaign estimate.

Notre Dame, Alabama and Michigan State are 1-2-3 in that order, the same positions they occupied in the preseason ratings. The three play their first games this weekend, the Irish against California, Alabama against Florida State and the Spartans against Houston.

Texas is fifth while Georgia is in the No. 7 slot followed by Miami, Fla., Colorado and Nebraska.

In the initial season balloting by 36 sports writers and broadcasters on the AP's national panel, Notre Dame collected 22 votes for first place and 309 points on a basis of 10 points for a first-place vote, 9 for second etc.

Cards Ready For Series Ticket Sales

ST. LOUIS (AP) — The front office of the St. Louis Cardinals didn't bother to wait for the team to clinch the National League pennant. The club announced Monday it will begin accepting World Series ticket orders on Friday.

The third, fourth and fifth games of the series are to be played in St. Louis Oct. 7, 8 and 9. Bad weather could alter the schedule, as could a playoff in the American League. The series is scheduled to begin Oct. 4.

Here are procedures for ordering tickets:

1. Orders will be accepted for two sets of tickets (two tickets each to game 3, 4 and 5).
2. A check for \$49 must accompany each order. (\$8 each ticket and \$1 handling and mailing charge).
3. Orders must be postmarked only Sept. 22. No other dates will be considered.
4. Checks must be payable to "St. Louis Cardinals, Agent."
5. Checks should be addressed to "World Series Tickets, P.O. Box 8888, St. Louis, Mo., 63102."
6. A large self-addressed, stamped envelope should be enclosed.

Stofa in Surgery

MIAMI, Fla. (AP) — Dolphin quarterback John Stofa underwent surgery Monday to repair the multiple fracture of his right ankle suffered in Sunday's American Football League game against Denver.

Dr. Herbert Virgin called the operation successful, but said that Stofa would be out of action for at least eight weeks.

Adena High School Added To Scioto Valley Loop

Adena High School has been admitted to the Scioto Valley Conference, effective for the 1968-69 school year.

The action which increases the conference to a seven member league, was taken during a meeting held at Tink's Monday.

It marks the first addition since Unioto began competitive varsity action three years ago.

Charter members of the conference are Logan Elm, Laurelville, Piketon and Paint Valley. Westfall was the High School admitted to the athletic union four years ago.

ONLY five of the present member schools have football programs. Laurelville was forced to drop the fall sport because of a lack of student interest.

Adena will compete in all four league sports — football, basketball, track and baseball.

Scramble for NL Top Spot Still on; Chisox Slip

Boston's Jones boy and Minnesota's Jim-dandy are sitting pretty today, but it's still four for the seesaw in the American League pennant playground.

The Red Sox outslugged Detroit 6-5 on Dalton Jones' 10th-inning homer, the Twins

squeezed past Kansas City 2-0 on Jim Kaat's 10-inning six-hitter and California unseated the Chicago White Sox 3-2 in Monday night's renewal of the Great Race.

When the dust settled, the Red Sox, Tigers and Twins all had a piece of first place. It was a four-way deadlock until Rick Reichardt's RBI single in the ninth inning at Anaheim sent the White Sox reeling all the way to fourth place. ...one-half game off the pace.

Baltimore blanked the New York Yankees 2-0 in the other game on the AL schedule.

St. Louis nailed the National League pennant with a 5-1 victory over Philadelphia while Houston pounded Pittsburgh 14-4, Cincinnati shut out Atlanta 4-0 and the New York Mets trimmed Los Angeles 7-2.

Jones, a former bonus baby making only his third start this month, beat the Tigers with his fourth hit of the night after Carl Yastrzemski's 40th homer pulled Boston even in the ninth. It was the Red Sox' first victory in four starts.

Yastrzemski, who paces the league in homers and RBIs, also drilled a double and single to wrest the batting lead from Baltimore's Frank Robinson with a .314 mark.

Yastrzemski's ninth inning shot against Fred Lasher got the Red Sox a lift after Norm Cash poled two homers for De-

troit and Jim Northrup's run-scoring double in the eighth gave the Tigers a 5-4 edge.

"In that situation, I was going for the home run," Yaz said. "There was no doubt about it."

Kaat, who went into the Kansas City game with an 0-4 season record against the last-place A's, held them in check and struck out 12 before Ted Uhlaender's single and an error by center fielder Joe Nosske sent two runs home in the 10th.

Jim Catfish Hunter, who scattered three hits until the 10th, was the loser as the Twins ended a three-game tailspin.

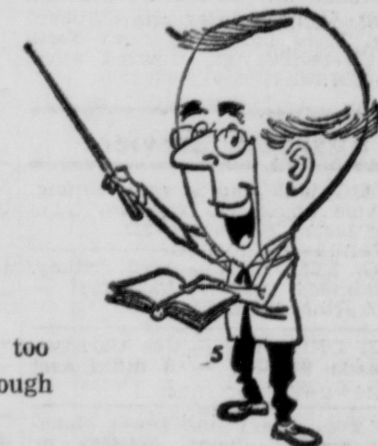

"I was due for some luck against these guys," said Kaat, who has won five straight for a 14-13 mark.

The White Sox managed just one hit against California rookie Ricky Clark until the eighth inning, when Jim Fregosi's error helped them push over two unearned runs for a 2-2 tie.

But Don Mincher singled against Chicago relief ace Bob Locker with one out in the ninth and pinch runner Roger Repoz tagged up and made second on Jimmie Hall's long fly to center. Reichardt then came through with the winning hit to center.

Dave McNally, making his first start in a month, and relievers John Buzhardt and Bill Dillman combined to blank the Yankees on six hits. Singles by Dave Johnson and Curt Blefary delivered the Oriole runs.

NL Championship No Surprise to Cards' Manager

By HAL BOCK
Associated Press Sports Writer
Manager Red Schoendienst was the picture of serenity as the St. Louis Cardinals bathed each other in champagne after clinching the National League pennant with a 5-1 victory over Philadelphia Monday night.

And why not? After all, he's known they'd win since March. "I don't get excited," said the cool redhead after watching Bob Gibson throttle the Phillies on three hits to clinch the flag.

"I told only one guy in the spring that we were going to win the pennant," Schoendienst continued. "That was Danny Murtaugh one day when we played the Pirates in Fort Myers, Fla. I told him not to tell anybody but we were going to win."

The Cardinals didn't keep Schoendienst's secret very well. They soared to the top of the league in mid-June and have been in front ever since. Jolted by the loss of Gibson, who suffered a broken leg in mid-July, St. Louis refused to fold and instead broke the race apart with a string of 21 victories in 25 games.

Keys to the pennant victory were pitchers Dick Hughes, Steve Carlton and Nelson Briles, who picked up the slack when Gibson was hurt, and the acquisition of sluggers Orlando Cepeda and Roger Maris through trades.

Cepeda, traded by San Francisco for pitcher Ray Sadecki last summer, leads the league with 108 runs batted in and is batting .330. He danced through the happy clubhouse screaming "El Bardo—beautiful, beautiful, beautiful."

In other National League games Monday night, New York pounded Los Angeles 7-2, Hous-

ton rapped Pittsburgh 14-4 and Cincinnati blanked Atlanta 4-0.

In the American League, Boston topped Detroit 6-5 in 10 innings, Minnesota outlasted Kansas City 2-0 in 10 innings, Baltimore shut out New York 2-0 and California tripped Chicago 3-2. Boston, Detroit and Minnesota are all tied for first place, one-half game in front of Chicago, in the torrid American League race.

Gibson won his 13th game and third since recovering from his broken leg. He said his arm still wasn't at its best. "I need another outing and it will be all right," said Gibson, who was the hero of St. Louis' seven-game victory over New York in the 1964 World Series.

The Cardinals were held hitless through five innings by Dick Ellisworth but busted loose for four runs in the sixth. Dal Maxvill opened with a single, moved up on Gibson's sacrifice and scooted home on Lou Brock's double. Brock scored on Julian Javier's hit.

Curt Flood struck out but after Cepeda was purposely walked, Mike Shannon doubled Javier home. Cepeda also scored on the hit when Cookie Rojas threw wild on the relay.

Rookie Tom Seaver won his 15th game for the Mets, scattering eight hits as New York ended a seven-game losing streak. Ken Boswell, making his first big-league appearance, drove in two runs with a sacrifice fly and a double.

Deron Johnson and Tony Perez cracked home runs and Ted Abernathy saved his 25th game as Cincinnati blanked Atlanta. Mel Queen worked the first six innings for the Reds and won his 14th game.

Doug Rader smacked four Houston walloped Pittsburgh. Jimmy Wynn scored four runs as the Astros unloaded a 15-hit attack for their sixth straight victory.

Cincy Announces 2 Player Deals

CINCINNATI (AP) — The Cincinnati Reds announced Monday they have acquired a lefthanded pitcher and a combination first baseman-catcher.

They obtained pitcher Bill Henry, 25, from the New York Yankees and DeGold Francis, 21, the catcher-first baseman, from the San Francisco Giants.

They will join the club next spring officials said. They also said infielder Len Boehmer, who played in three games with the Reds in 1967 and spent the rest of the season with Buffalo of the International League, has been sold to the Yankees' farm club at Syracuse.

Henry won eight and lost seven with Syracuse while compiling a 3.04 earned run average. With Waterbury in the Eastern League, Francis, a right-hander, hit 11 home runs and drove in 44 runs in 115 games.

Slip Away Captures Brown Jug Warmup

DELAWARE, Ohio (AP) — Slip Away, won the \$7,799 3-year-old Filly Pace here Monday in a preliminary to Thursday's Little Brown Jug.

Slip Away, daughter of Meadow Pace and driven by Del Miller, won the first heat and then placed third in the second heat to win.

Drawing Today
For Positions
In Brown Jug

By HAL PARIS
Associated Press Sports Writer

DELAWARE, Ohio (AP)—The
nation's finest 3-year-old pacers
draw for post positions today
for Thursday's 22nd renewal of
the rich Little Brown Jug.

Fabulous Romulus Hanover,
shooting for the second leg in
pacing's Triple Crown, is favored
to take the big pot in the
\$80,000 Jug purse.

Romulus, son of Dancer Han-
over-Romula Hanover, already
holds a victory in the Messenger
Stake, the first leg of the triple.

Trainer-driver Billy Haughton,
who will guide Romulus, is after
his third Jug triumph. Haughton
won with Quick Chief in 1955
and Vicar Hanover in 1964.

The pacing classic will be
contested at the Delaware County
Fairgrounds, one of the nation's
fastest half-mile tracks.

A crowd of 25,000 is expected
to make Romulus a prohibitive
favorite when the first heat of
the Jug breaks from the gate
at approximately 2:30 p. m.

The chestnut colt, owned by
the Farmstead Acres Stable of
Brookville, N. Y., has registered
14 successes in 16 starts
earning well over \$200,000 for
its owners. His latest success
was last Thursday with a
1:58 2-5 victory in the Jug pre-
view at Detroit's Hazel Park.

Several strong challengers
could menace Romulus, includ-
ing Ohio-owned Best of All,
Nardin's Byrd, Meadow Paige,
Honest Story, Nevele Dancer,
Payson Hanover, Red Wave
and possibly one or two others.

Best of All, owned by Sam
Huttenbauer of Cincinnati, was
the 1966 2-year-old Pacer of the
Year and shares, with Romulus,
this year's best time on a half-
mile track of 1:58 2-5.

Trained and driven by Jimmy
Hackett, Best of All shows 10
victories, three seconds and
three thirds in 17 heats.

Nardin's Byrd, owned by
Arthur Nardin's Trade Horn
Stable of North Bay Village,
Fla., has raced consistently
well all season with three wins,

three seconds and four thirds
in 17 starts.

Trainer-driver Stanley Dancer
will be shooting for a third Jug
prize with Nevele Dancer, one
of the busiest contenders. The
Nevele Acres, Ellensville, N.Y.,
colt has raced 21 times with 14
victories.

Honest Story, bay son of 1959
Jug king Adios Butler, won the
\$25,000 American - National for
Eddie Cobb in Chicago in his
fastest time ever of 1:58 4-5.

Set Ceiling on Spending, House Committee Urges

WASHINGTON (AP) — A strict ceiling on spending should be written into the President's plan to raise taxes unless he makes substantial budget cuts, say some members of the House Ways and Means Committee.

But a Treasury Department official says that unless Congress approves higher taxes this year the government will be forced to borrow an extra \$2 billion by the end of December.

Meanwhile, a private research group reports that per capita federal spending increased 2.3 times over the last 20 years when adjusted for inflation. Expenditures for health, labor and welfare displayed the most rapid growth.

An Associated Press survey showed that most members of the tax writing Ways and Means Committee are not inclined to

approve any tax hike unless it is matched by deep and specific spending cuts.

Some members believe the threat of inflation will grow fast unless there is speedy action to reduce the federal deficit.

"It would be best of course," said one member who asked not to be quoted by name, "if the President would send up recommendations for priorities in re-scinding appropriations or freezing funds already authorized."

"But if he doesn't, we might get into a situation where we would have to legislate an over-all spending hold-down and force the executive departments to decide how they will live within it."

Some members suggest that instead of an across-the-board budget trimming, it would be easier to select whole programs—elements of the space program, for example—and shelve them for the duration of the money squeeze.

In the Senate, Sen. Abraham A. Ribicoff, D-Conn., opposed the tax increase proposal, saying it could push the economy into a downward slide. He said needed funds should come from tax reform and spending cuts.

Taft Critical

Of 'War on Crime'

CLEVELAND (AP)—in raping the U.S. Justice Department here Monday, Rep. Robert Taft Jr., R-Ohio, said that "their attempt to mislead the American public... will not succeed."

Taft, a member of the House Republican task force on crime, charged the Johnson Administration is "waging a war of confusion and misrepresentation" instead of a legitimate war on crime.

He said when the Justice Department is pressed for data concerning crime in the country, the department "cites meaningless statistics."

The congressman from Cincinnati spoke at a Republican rally.

"The attempt to confuse... is symptomatic of the whole Johnson Administration," he said. "They've run out of ideas."
